The results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle for which this information is supplied. Vehicles are not individually tested, and there are inevitably differences between individual vehicles of the same model. In addition, the vehicle may incorporate particular modifications that affect its fuel consumption. Furthermore, the driver's style and road traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance will all affect its fuel consumption. Information as to the results of the officially approved tests on all vehicles tested is available to customers on the premises where these vehicles are displayed.

**ON-THE-ROAD-PRICE** – Includes First Year Vehicle Excise Duty – £1,000 (5.0 S/C) and £790 (3.0 TDV6 Diesel) for 12 months (effective 1st April 2011 – subject to statutory changes) and a £55 Government Vehicle First Registration Fee.

Fuel supplied by the dealership and other goods or services supplied by agreement between customer and the dealership are not included.

Prices effective from April 2011 (2011 Model Year). For use in the UK only.

All Land Rover Approved Accessories fitted by a Land Rover dealership within one month or 1,000 miles (which ever occurs first) of the handover of a new vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to 12 months unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot or cold temperatures, corrosion resistance, impact and air bag deployment, highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation.

All our accessories are designed to be an integral part of Land Rover vehicles, while many items such as roof carriers are simple to fit, some products require specialist tools and diagnostics equipment to ensure correct integration with the vehicle structure and electrical systems.

†Children are safer when correctly restrained in the rear of a vehicle
