Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise the values of the designers and engineers who have created them. Each one is instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.
DISCOVERY SPORT COMBINES DESIGN EXCELLENCE, ENGINEERING INTEGRITY AND EXCEPTIONAL VERSATILITY TO CREATE A PREMIUM COMPACT SUV.

Gerry McGovern,
Land Rover Design Director and Chief Creative Officer.

Scan to view the Discovery Sport in action. Vehicles shown are from the Land Rover global range. Specifications, options and availability will vary between markets and should be verified with your nearest Land Rover Retailer. Vehicle shown right is HSE Luxury in Scotia Grey.

Scan to view the Discovery Sport in action.

Vehicles shown are from the Land Rover global range. Specifications, options and availability will vary between markets and should be verified with your nearest Land Rover Retailer. Vehicle shown right is HSE Luxury in Scotia Grey.
This is a modern, relevant and compelling vehicle, with its well-proportioned compact body and purposeful stance. Its distinctive silhouette and beautifully sculpted surfaces all combine to create a vehicle that truly connects on an emotional level. Discovery Sport is ready for anything. Characteristic design cues complement perfectly balanced proportions. Strong dynamic lines and robust detailing signal Discovery Sport’s incredible breadth of capability.

Signature features include a clamshell bonnet and distinctive two-bar grille with hexagonal mesh.

The fast bonnet line with a pronounced step into the rising beltline conveys a dramatic stance, whilst the roof tapers subtly downwards, adding extra dynamism.
The desirability of the exterior design continues into the cabin with bold horizontal and vertical lines, complemented by clean surfaces, superb finishes and optional premium leathers that give a luxurious feel to the highly versatile interior. Inside and outside seamlessly blend into a vehicle that clearly communicates its Discovery DNA, whilst firmly looking forward. This spirit of adventure is reflected in Discovery Sport’s interior, which has been designed with you at its core. It features high-quality materials and a strong vertical centre console design to reflect the premium exterior.

The cabin is equipped with up to four 12V power points and six USB charging sockets. These can be specified for all three rows of seating, allowing multiple electronic devices to be charged simultaneously.

With a 21:9 wide format and 80 percent more pixels than the 8" Touchscreen, the new 10” Touchscreen is a superb addition to the contemporary, clean interior and becomes a centrepiece of the facia.

The Command Driving Position in Discovery Sport ensures a greater view of the road ahead so all terrains can be tackled with confidence.
5+2 SEATING

Discovery Sport offers exemplary levels of comfort and outstanding versatility. The second row is extremely spacious and flexible, with the seats able to slide back and forth by 160mm for greater loadspace or comfort.

The third row, with its simple, single-handed 50:50 deployment, has been cleverly incorporated to avoid any compromise to the vehicle’s exterior design, while maintaining passenger comfort.

By folding down the third row, a flat loadspace is available for whenever you need it. So wherever you’re seated, or whatever you want to carry, you can relax.

*Where 60:40 second row seats with slide and recline is specified. Interior shown left is HSE Luxury in Glacier/Lunar.
Discover Sport has been designed and engineered to meet any challenge. The vehicle has the option of flexible seating which, when eroded flat, gives a maximum load floor that is as long as Range Rover and a maximum loadspace of 1,698 litres. Even whilst carrying five passengers, the load space is still an impressive 981 litres. Discovery Sport can handle bulkier loads with consummate ease when the second and third rows are folded flat. Such flexibility helps make carrying family, friends and all their gear that much easier.

LOADSPACE CAPACITY

- 5 + 2 SEATS: 194 LITRES
- 5 SEATS: 981 LITRES
- 4 SEATS: 1,124 LITRES
- 4 SEATS: 1,268 LITRES
- 3 SEATS: 1,411 LITRES
- 2 SEATS: 1,698 LITRES

Interior shown is HSE Luxury in Glacier/Lunar.
The Discovery Sport Dynamic Design Pack delivers a more assertive stance while retaining the instantly recognizable design cues of the Discovery Sport. Yet, when it comes to capability and versatility, nothing has been lost. However, in terms of dynamism and appeal, much has been gained. The vehicle’s bold new front and rear design with new contoured side mouldings form a dramatic presence. This has been augmented with a new Black mesh design for the front grille and side vent. Distinctive Chrome exhaust finishers* together with a Red SPORT badge further enhance the appearance.

*Dichroic exhaust finishers only fitted on diesel engines. Petrol engines fitted with a silver painted chrome look finisher.

Vehicle shown right is HSE Luxury with Dynamic Design Pack in Florence Red
Carefully selected sporting touches enhance the interior of the Dynamic Design Pack. A choice of three colourways help to create a vehicle with exemplary levels of finish, available in perforated grained leather and perforated Windsor leather. The interior is further enhanced with a perforated leather sport steering wheel, contrast micropiping on the seats and headrests and unique textured finish to the door inserts and facia mid-section.

The mood is augmented with either Dark Grey or Carmine Red Brushed Aluminium centre stack side rails, depending on the colourway selected. The HSE and HSE Luxury interiors are also complimented with aluminium sport pedals.

Interior shown left and above, a HSE Luxury with Dynamic Design Pack, in Ebony/Ebony with Pimento stitching and piping. Interior shown right, a Carmine Red Brushed Aluminium centre stack rake side rail and contrasting gear shift paddles.
DRIVING TECHNOLOGY

TESTING

Before any vehicle can carry the Land Rover badge, it must complete a series of rigorous tests to establish the very highest levels of luxury, performance and capability.

SUSPENSION

You’re unlikely to push any Land Rover harder than we have. For an unrivalled breadth of dynamic capability, both on and off-road, the vehicles have been exposed to ten years of the most extreme driving pressures in a fraction of the time using our state-of-the-art test rig.

WIND SPEED

Discovery Sport was developed in state-of-the-art wind tunnels and a suite of climatic chambers to recreate some of the most challenging aerodynamic conditions it will face. Only by pushing all systems to their limits do we develop true reliability.

HOT AND COLD CLIMATE

In real world environments and our climate chambers, we freeze vehicles to -40°C and bake them to 50°C. Key functions and systems are then scrutinised to our exacting standards. So even in the most remote locations, comfort and peace of mind are never far away.

DRIVING TECHNOLOGY

TESTING

Before any vehicle can carry the Land Rover badge, it must complete a series of rigorous tests to establish the very highest levels of luxury, performance and capability.

OFF-ROAD

From the icy proving grounds of Arjeplog, Sweden, to Dubai’s unforgiving desert sands, we ensure our legendary all-terrain performance is innate in every vehicle. Prototypes are developed across approximately 8,500km of the most demanding off-road routes.

SEMI-ANECHOIC CHAMBER

In the ‘neutral sound’ of our semi-anechoic chamber, we precisely expose the cabin to a range of frequencies and vibrations, making certain that Discovery Sport sounds refined at every speed and across every surface.

MONSOON

Our water testing facilities ensure each vehicle can enter and exit a body of water without a single droplet entering the cabin. In the monsoon simulator each one is drenched with some 85,000 litres of specially dyed water, while tilting it by as much as 45°, checking for even the slightest leak with UV lights.
Land Rover has always been synonymous with capability and the Discovery Sport lives up to even the most demanding expectations. Confident and responsive, the drive is further enhanced by a generous wheel articulation and innovative off-road technologies such as Terrain Response.

This feature is standard on all 4WD vehicles and adapts to the responses of the vehicle’s engine, transmission, differentials and chassis systems to maximise driveability, comfort and traction.

There are four standard Terrain Response settings: General Driving, Grass/Gravel/Snow, Mud & Ruts and Sand. So, the vehicle feels sure-footed no matter what the terrain or weather conditions.

A fifth setting, Adaptive Dynamics, is also available*. This mode tunes the suspension to deliver even tighter body control with flatter handling and sharper responses.

*This available with 4WD or TDS 300PS engine. Vehicle shown right is HSE Luxury in Scotia Grey.
ALL TERRAIN PROGRESS CONTROL

All Terrain Progress Control (ATPC) is a state-of-the-art system that enables drivers to set and maintain a steady speed in challenging conditions. The system is fitted as standard on SD4 and SD6 engines* and is an optional extra on TD4 180PS engines when specified with automatic transmission and cruise control.

Operating like a cruise control system, it functions at very low speeds between 1.8kph and 30kph (1mph and 18mph), helping the driver to maintain full concentration on steering and finding a path through obstacles.

In addition, the system enables the vehicle to pull away smoothly and easily, even on tricky low-friction surfaces like ice, snow or wet grass.

Developed by Land Rover’s industry-leading all-terrain specialists, it works seamlessly alongside the standard Terrain Response, 4 Wheel Drive (4WD) traction and braking systems.

Once ATPC is activated, the standard steering wheel +/- cruise control buttons are used to set the speed. Brake and accelerator pedals can still override the chosen settings.

*Optional on all 240PS Pure models. Vehicle shown left is HSE Luxury in Scotia Grey.

*Optional on Si4 240PS Pure models.
Land Rover’s patented Hill Descent Control (HDC) is a standard feature on all 4 Wheel Drive (4WD) vehicles. It assists the driver with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel. Hill Start Assist ensures the vehicle doesn’t roll backwards as it pulls away on an incline. The vehicle also utilises Gradient Release Control (GRC) which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake.

With a wading depth of up to 600mm, whether crossing streams, fords or flooded areas, the Wade Sensing feature can prove invaluable. Unique to Land Rover, sensors located in the door mirrors give the driver pictorial real-time information about the water’s depth in relation to the vehicle, as well as maximum wading capability via the Touchscreen.
ADAPTIVE DYNAMICS

Optional Adaptive Dynamics with advanced MagneRide™ monitors vehicle movements at least 1,000 times per second, reacting to driver or road inputs instantaneously to give greater control and minimum body lean, providing a balanced, flat ride. Available on all TD4 180PS, SD4 and SD6 engines, the system will even sense off-road conditions and optimise the advanced MagneRide™ damper settings accordingly, delivering the perfect balance of agile handling and a supple, controlled ride.

TORQUE VECTORIZING

When cornering, the vehicle’s agility and stability are enhanced by the Torque Vectoring by Braking system. This feature comes as standard on all 4 Wheel Drive (4WD) vehicles. Monitoring the vehicle, the system constantly balances the distribution of torque between all the wheels to improve grip and steering whether on or off-road.

ACTIVE DRIVELINE

Optional on TD4 180PS and SD4 engines and standard on the SD6 engine, Active Driveline delivers benefits in both on and off-road situations. In many on-road driving conditions, the system is able to disconnect drive to the rear of the vehicle, providing maximum 2 Wheel Drive (2WD) fuel economy. A sophisticated control strategy continuously monitors key vehicle and environmental parameters.
TOWING AIDS

With a towing capacity of up to 2,500kg, and by incorporating tailored technologies, Discovery Sport can handle the most demanding of tasks.

**ELECTRICALLY DEPLOYABLE TOW BAR**
The electrically deployable tow bar is stowed discreetly behind the bumper, providing a clean and attractive finish. Approved for up to 2,500kg trailer load.

**DETACHABLE TOW BAR**
Convenient and easy to use, the detachable tow bar maintains the vehicle’s exterior design when removed or when stowed.

**REAR VIEW CAMERA**
Providing improved visibility when reversing, the Rear View Camera is a valuable parking aid and offers help when hitching a trailer.

**Tow Hitch Assist** makes coupling a trailer to the vehicle much easier by helping you visualise the hitching process; it displays the predicted path of the vehicle towards the tow bar on the Touchscreen. Standard with Rear View Camera.

**TRAILER STABILITY ASSIST**
Trailer Stability Assist monitors the vehicle to detect movements in the trailer and then uses selective braking to help correct potentially hazardous situations.

**SURROUND CAMERA SYSTEM**
As part of the Surround Camera System, the Tow Assist feature helps with reverse parking by predicting the trailer’s direction. You can even input your trailer’s width for precise guidelines displayed on the Touchscreen.

Towing regulations vary by market. Please ensure you comply with relevant legislation in your country. Touchscreen shown is 10” Touch Pro. Please contact your nearest Land Rover Retailer for feature availability. Vehicle shown left and above is HSE Luxury in Scotia Grey.
HEAD-UP DISPLAY

Head-up Display is a technology that presents key vehicle data such as vehicle speed, gear position and navigation directions* on the windscreen, without the need for the driver to take their eyes off the road.

This innovative laser system is more robust against issues such as ‘washout’ – the effect that the glare from sunlight has on inferior LED-based systems. The feature can be turned on and off dependent upon driver preference.

TOUCH

AVAILABLE ON PURE, SE, HSE AND HSE LUXURY MODELS

- 6” Touchscreen
- Land Rover Sound System with 6 speakers
- Land Rover Enhanced Sound System 190W with 10 speakers
- Meridian™ Sound System 380W with 10 speakers plus subwoofer

OPTIONAL

- Navigation including Voice Recognition
- Digital Audio Broadcast (DAB) Radio
- Pro MultiMedia Interface (MMI) with 10” Touchscreen
- Traffic Sign Recognition*

- Connect takes your vehicle’s connectivity to the next level including:
  - InControl Apps
  - Remote Premium

- Pro Services includes Wi-Fi Hotspot.**
- InControl takes your vehicle’s connectivity to the next level including:
  - InControl Apps
  - Connect gives you the very highest level of connectivity and convenience. Features include:
    - InControl Apps
    - Remote Premium.

TOUCH PRO

AVAILABLE AS AN OPTION ON SE, HSE AND HSE LUXURY MODELS

- 10” Touchscreen
- Meridian™ Surround Sound System 625W with 14 speakers plus subwoofer
- Navigation Pro
- Voice Recognition
- CD/DVD player
- Pro Services including Wi-Fi Hotspot***, Route Planner App, Share ETA, Live Services, Commute Mode, Ambient Mode and Ambient Mode Parking
- Protect (Standard on all models)

OPTIONAL

- Digital Audio Broadcast (DAB) Radio
- 10” Dual View Display
- Digital TV
- Rear Seat Entertainment (Optional on HSE and HSE Luxury models)
- Secure Tracker
- InControl Apps
- Traffic Sign Recognition*

- Connect Pro gives you the very highest level of connectivity and convenience. Features include:
  - InControl Apps
  - Remote Premium.

*Requires Navigation or Navigation Pro
**Only available as part of the Entertainment Packs
***Standard and optional features may offer different or no market availability. Please contact your nearest Land Rover Retailer for more information. Additional usage fees may apply to your infotainment connection by your Infotainment connection service provider.

For the sharpest sound quality, Discovery Sport offers you the choice of four exceptional audio systems. With 6 speakers, the Land Rover Sound System in Discovery Sport delivers a crisp, well-balanced sound. A 10 speaker system is also available, adding further depth and clarity.

Added to which, Land Rover has partnered with Meridian™, a world leader in high-performance audio technologies and digital sound processing, to develop advanced audio systems for Discovery Sport.

Dynamic Volume Control technology has been integrated on all Meridian sound systems, to ensure that any unwanted noise detected in the cabin will be smoothly and automatically balanced out.

The Meridian™ Sound System 380W includes 10 speakers and a dual channel subwoofer, delivering exceptional definition, crystal-clear highs and full, deep bass through the careful arrangement of speakers.

Connectivity

Touch and Touch Pro provide a wealth of information and entertainment. This intuitive InControl technology can help you find a parking space, stream your favourite music and even help you with the recovery of a stolen vehicle. Making life more rewarding, hassle-free and enjoyable.

Planning Routes

Before setting off, use the Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle’s navigation screen.

Staying Connected

Before you get into your vehicle, set your ideal cabin temperature with the Remote Premium app on smartphones and now the Apple Watch®. On the road, the in-car Wi-Fi Hotspot provides a stable Internet connection and lets you connect up to eight devices.

Staying Focused

Our Touch Pro Voice Recognition system understands normal spoken instructions. So you can concentrate on the road ahead without any distractions.

Finding Parking

When you near your destination, Navigation Pro will suggest nearby parking from a database including space availability. With just one click, the car park is added and your route is updated. Arrive/Move Parking shows a 360° street-level image to help you identify your destination. Only available with Touch Pro.

Door-to-Door

Once you’ve parked, the Route Planner app will guide you to your destination – a true door-to-door experience which includes public transport options. Only available with the Entertainment Packs. The Remote Premium app also lets you check your vehicle to make sure you’ve locked and secured all doors and windows.

Stolen Vehicle Tracking

With optional Secure Tracker, if your vehicle is broken into, a silent alarm is triggered alerting the relevant authorities. Your vehicle can then be tracked until it is recovered.

Help is always at hand

With Protect, in the event of an incident, SOS Emergency Call will automatically connect you to the emergency response team who will send the emergency services to your location. Otherwise, you can call them manually via an in-car button. You can also summon a Land Rover Optimised Assistance operator should you need technical assistance.

Plan your route on landrover.com/incontrol
**Driver Assistance**

**Driving Aids**

**Lane Keep Assist and Driver Condition Monitor**
Lane Keep Assist detects when your vehicle is unintentionally drifting out of your lane, and gently steers you back. Driver Condition Monitor detects if you’re starting to feel drowsy and gives you an early warning when you need to take a break.

**Adaptive Cruise Control with Queue Assist and Intelligent Emergency Braking**
When you’re cruising on the motorway or travelling in slow-moving traffic, this system will keep your vehicle a safe distance from the one in front should it slow or stop. Should the vehicle in front stop completely, your vehicle will come to a smooth halt. Once the traffic moves, simply touch the accelerator and Adaptive Cruise Control will resume following the car in front. The system operates from 16kph (10mph) up to motorway speeds.

**Autonomous Emergency Braking**
If a potential frontal collision is detected, the system displays a forward alert, giving you time to take action. A camera at the front of the vehicle monitors speeds from 5kph to 80kph (3mph to 50mph) for frontal collision. If a collision is still anticipated and you have taken no action, this system will apply the brakes to help reduce the severity of the possible impact.

**Blind Spot Monitor and Reverse Traffic Detection**
Blind Spot Monitor alerts you to vehicles in, or quickly approaching your blind spot through a small warning light in the corresponding door mirror. Reverse Traffic Detection warns you of hazards, approaching from either side of your vehicle, through both audible and visual warnings so you know what’s behind you even when the view is obstructed.

**Parking Aids**

**Park Assist**
Our Park Assist system makes parallel and perpendicular parking easier than ever by automatically steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle’s speed with the brake and accelerator pedals. Park Assist will also steer you out of a space, taking all of the stress out of parking.

**Rear View Camera**
To make parking in tight spots simpler, static lines to represent the vehicle’s outer perimeter and predicted path are superimposed on the rearward image displayed on your Touchscreen.

**Surround Camera System**
Using four digital cameras discreetly placed around the vehicle, the system provides an almost complete 360° view including a birds-eye overhead view via the Touchscreen. This helps with various manoeuvres from parking by a kerb, to getting in and out of tight spaces and junctions.

**Homelink**
The Homelink System is a universal transmitter fitted to the underside of the interior rear view mirror. This transmitter can be programmed to operate up to three home or office wireless controlled systems, such as garage doors, automatic gates, or security lighting. By replacing the individual remote control units normally required for each system, the driver no longer needs to search the car interior for the correct handset when needed.

---

*Homelink is the registered trademark of Gentex Corporation.  Touchscreen shown is 10” Touch Pro.  Features and availability may differ by vehicle specification and market. Please contact your nearest Land Rover Retailer for more information.*
COMFORT FOR ALL

SEATING
Heated front seats are available on all models and, for added comfort, vehicles can also be specified with heated second row seats.

For the ultimate comfort whatever the temperature, heated and cooled front seats are available providing ventilation through perforations in the perforated grained leather and perforated Windsor leather seats. The driver and passenger preferences can be independently controlled via the Touchscreen.

TIMED CLIMATE
Timed Climate has an added Park heat facility. This pre-warms the engine, channeling residual heat into the cabin, so the vehicle is warm and comfortable by the time the driver leaves the house. Likewise, in hot weather you can cool down the cabin temperature. It can be activated remotely for extra ease and convenience, or pre-programmed through the Touchscreen to ensure it’s ready for your regular morning departure time.

CONFIGURABLE AMBIENT INTERIOR LIGHTING
New levels of ambient refinement and personalisation have been reached with Configurable Ambient Interior Lighting. This feature allows you to vary the colour and shade, changing the ambience of the cabin to suit your mood. There are five colours in total, ranging from Ice White through to Moonlight and Racing Red.

PANORAMIC ROOF
The full glass fixed panoramic roof enhances the sense of space in the vehicle’s interior and floods it with natural light as well as providing uninterrupted views of the surrounding environment. Importantly, the toughened glass has a dark tint to maintain a comfortable temperature inside the cabin and protect occupants and the interior from the sun’s rays. A full-sized, powered interior blind is also provided for those who may prefer a more private experience.

COMFORT FOR ALL
REAR SEAT ENTERTAINMENT
Rear Seat Entertainment features two 8" screens built into the front headrests, two pairs of WhiteFire® digital headphones, one USB port in the second row and a dedicated remote control. With your choice of film, television, music or games console, you can feel truly at home.

DIGITAL TV
Digital TV channels can be watched on the rear screens and new 10" high-resolution Touchscreen.

DUAL VIEW DISPLAY
The Dual View system allows the driver and passenger to view completely independent display content on the 10" Touchscreen. For example, the driver can use the satellite navigation system, while the front seat passenger is able to watch a DVD or TV, where fitted. One set of WhiteFire® digital wireless headphones is included.

POWERED GESTURE TAILGATE
Powered gesture tailgate allows you to operate the tailgate both to open and close from outside the vehicle without needing to physically touch the vehicle or the smart key. Provided that the smart key is detected, the tailgate may be operated by a kicking gesture underneath the rear of the vehicle. Two sensors mounted on either side of the tailgate allow tactile operation, rather than needing to be immediately behind the vehicle. And as the system is compatible with towing solutions, you can still open and close the tailgate with the least amount of fuss.

Additionally, a button located inside the tailgate or on the smart key allows the tailgate to be closed automatically with powered tailgate.

USB CHARGING POINTS
Want to charge a games console, tablet or smartphone whilst you’re on the move? Discovery Sport has the option of six USB charging ports throughout all rows, to make charging your devices effortlessly simple.

*Whilst Land Rover continues to work closely with its partners to develop TV standards worldwide, we cannot guarantee the TV feature in all countries at all times.
WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under licence. Features and specifications may be modified or withdrawn at any time depending on market availability.

Vehicle shown top right is HSE Luxury in Yulong White. Interior shown left and bottom right is HSE Luxury in Glacier/Lunar.
9-SPEED AUTOMATIC TRANSMISSION

The lightweight, compact 9-speed Automatic Transmission provides optimum fuel economy and CO2 emissions, as well as greater control in low-grip conditions or when towing through the specially designed, ultra-low first gear. The transmission is specifically designed for transverse applications, and is one of the most efficient and technically advanced ever used in a production vehicle. Two patented dog clutches replace the bulkier conventional set-up, allowing small ratio steps to give better response during acceleration, plus improved shift quality, drive and refinement.

The higher top gear not only reduces fuel consumption but the lower engine revs improve comfort and reduce noise when cruising at a sustained speed. The 9-speed Automatic Transmission is extremely robust and perfectly complements Land Rover's rugged all-terrain ability whilst delivering exceptionally high levels of refinement and efficiency.
**INGENIUM DIESEL ENGINES**

**TD4 150PS/180PS**

The Ingenium 2.0 litre 4-cylinder Turbocharged Diesel engine produces 380/430Nm of torque and is optimised to deliver the best fuel economy in the range.

- High-pressure common rail direct fuel injection, exhaust variable cam timing and a high-efficiency water-cooled intercooler work in combination for a clean, efficient combustion.
- Intelligent, electronically controlled, adaptive engine cooling only engages when required – minimising fuel consumption and CO2 emissions.
- The engine features a variable geometry turbocharger that adapts to the changing flow of exhaust gases for high torque throughout the rev range and responsiveness that is uniform, progressive and inclusive.

**SD4 240PS**

The Ingenium 2.0 litre Twin Turbocharged Diesel, producing 240PS and 500Nm of torque, improves upon performance whilst maintaining impressive fuel economy.

- Series sequential twin turbochargers deliver an ideal combination of peak power performance and superior low speed driveability.
- Upgrades include a higher pressure common rail fuel system, increased from 1,800 to 2,200 bar, and an increased fuel injector flow rate. These combine to deliver optimised fuel economy, emissions and power delivery.
- The result is an engine that pushes performance boundaries of a four cylinder with the strong fuel economy inherent in the Ingenium range.

**E-CAPABILITY**

Land Rover’s commitment to sustainability is manifest in its current range of vehicles, utilising a wide range of innovative and efficient technologies including intelligent Stop/Start and Brake Energy Regeneration. Discovery Sport’s latest engine range is just the latest testament of innovation to provide further efficiency whilst not compromising on capability. A Blue SPORT badge on the rear of the vehicle denotes the most efficient engines of the range.

Engine availability is market dependent. Please contact your nearest Land Rover Retailer for more information.
INGENIUM PETROL ENGINES

**Si4 240PS**
The Ingenium 2.0 litre 4-cylinder 240PS Turbocharged Petrol engine produces 340Nm of torque and delivers outstanding fuel economy and driveability.

- The intelligent Continuously Variable Valve Lift (CVVL) system on the inlet valves reduces engine pumping losses. This leads to an increase in efficiency with maximum fuel economy.
- CVVL works in combination with dual independent variable valve timing to continually optimise engine operation, resulting in excellent power and fuel economy over the entire range.
- Dual variable valve timing and independent cam timing, optimising power and fuel economy.
- Maximum torque is available at 1,250 rpm.
- The twin-scroll turbocharger is fed by an integrated exhaust manifold which reduces the transfer of energy to the turbine, significantly reducing turbo lag and improving engine response.

**Si4 290PS**
The high performance Ingenium 290PS 2.0 litre 4-cylinder Turbocharged Petrol engine features upgrades to the boosting system.

- Delivering a peak torque of 400Nm at 1,500 rpm.
- The uprated turbocharger features a high flow compressor wheel providing 40% more air, enabling a peak power output of 290PS.
- The twin-scroll turbocharger features ceramic ball bearings which reduces friction and improves transient response.

*If vehicle fitted with 18" wheels the top speed will be 221kph (137mph).

Engine availability is market dependent. Please contact your nearest Land Rover Retailer for more information.

The high powered Si4 290PS engine comes with the Dynamic Design Pack as standard featuring a unique bumper. Fog lights not available.
Discovery Sport features an extremely strong, lightweight body structure which has been developed using advanced, weight-saving materials to deliver outstanding stiffness and refinement together with exemplary characteristics in collision situations.

The structure is based on a steel monocoque foundation which is derived from Land Rover’s compact SUV platform. Lightweight technologies are used extensively in the body design including:

- Optimised steel body construction
- Aluminium bonnet, roof and tailgate panels
- Lightweight aluminium suspension components
- Magnesium cross over beam and front end carrier.

**CHASSIS AND VEHICLE DYNAMICS**

Discovery Sport has a chassis which has been specially developed by Land Rover engineers to deliver agile and refined on-road dynamics along with the brand’s legendary all-terrain capability. Lightweight aluminium chassis components are used extensively to improve suspension performance by increasing stiffness and reducing unsprung weight, while also reducing total vehicle weight.

The chassis features a number of innovations, such as Electric Power Assisted Steering (EPAS), which help the vehicle achieve its unique dynamic character and improved efficiency.

**FRONT SUSPENSION**

Aluminium components are used within the front suspension. The front suspension uses advanced hydraulic rebound stops which help to manage the noise and loads caused by severe impacts such as speed bumps, to maintain composure in urban and off-road environments.

**COMPACT REAR SUSPENSION DESIGN**

Discovery Sport has a fully independent suspension system with an advanced multi-link rear suspension design. This delivers enhanced dynamics and refinement together with a compact layout to provide increased interior space.

The system has been specifically developed to enhance Discovery Sport’s unrivalled breadth of capability, offering responsive and agile handling together with supreme ride quality and refinement. Excellent wheel travel and articulation helps the vehicle achieve class-leading off-road performance.

The compact aluminium multi-link layout also creates a much more spacious rear compartment, with enhanced shoulder and elbow room, the option of 5 + 2 seating and increased luggage space. Mounted on an optimised steel subframe, the system is light and stiff for optimum steering response, chassis performance and refinement.
SAFETY

5* EURO NCAP RATING

As with every Land Rover, safety was a key priority in the development of Discovery Sport, resulting in a first-in-class pedestrian airbag, Autonomous Emergency Braking, and a state-of-the-art bodyshell featuring both ultra-high-strength steel and lightweight aluminium. Discovery Sport has been awarded the maximum five star safety rating from Euro NCAP. In all variants, including 5 + 2 seat models, all seating positions are assessed to ensure a high standard of occupant protection. Discovery Sport also has a comprehensive occupant safety package including driver and passenger airbags, driver knee airbag, and side curtain and thorax airbags.

PEDESTRIAN PROTECTION SYSTEM**

Discovery Sport features a state-of-the-art Pedestrian Airbag System. Designed and tested to the most rigorous standards including advanced virtual and real-world situations, it protects pedestrians from impact with the base of the windscreen by using an airbag mounted within a cover found at the trailing edge of the bonnet panel.

PRESSURE SENSORS

The system uses advanced pressure-tube sensors, located in the bumper, to detect impact.

ENHANCED PROTECTION

The shape of the deployed airbag offers enhanced protection to a pedestrian in the event of an impact.

DRIVER VISIBILITY

The airbag deployment has been designed to ensure that the effect on the driver’s vision is minimised.

*When tested in 2014. **Please contact your nearest Land Rover Retailer for feature availability.

PASSENGER SEAT BELT CHECK SYSTEM
SUSTAINABILITY

Sustainability is at the heart of everything we do and consequently all powertrains on Discovery Sport have been optimised to enhance sustainability by minimising fuel consumption and CO₂ emissions.

Both petrol and diesel engines feature the latest high-pressure direct injection technology and state-of-the-art low-friction designs which have been carefully developed to minimise frictional losses. While both 6-speed Manual and 9-speed Automatic Transmissions are specified with the latest low viscosity transmission fluid to maximise efficiency.

An advanced intelligent Stop/Start system is standard on both manual and automatic models which automatically shuts down the engine in just 300 milliseconds when the vehicle comes to rest. This improves fuel economy and CO₂ emissions by between five and seven percent.

A smart regenerative charging electrical system has also been introduced which has an intelligent power management system to prioritise charging when the vehicle is decelerating, capturing the wasted kinetic energy and reducing the fuel demand of the electrical system. With up to 13.8kg of recycled plastic on Discovery Sport’s diesel engines and 16kg on the Si4 petrol engine, as well as up to 22.3kg of renewable and natural materials in each vehicle, we are taking big steps in reducing our environmental footprint.

Feature/engine availability is market dependent. Please contact your nearest Land Rover Retailer for more information.

ECO MODE

This feature when activated prioritises the most efficient vehicle settings including automatic transmission*, Active Driveline* and comfort features like heating and air conditioning in order to minimise fuel consumption and CO₂ emissions.

The ECO Data feature provides drivers with information and feedback via the Touchscreen to help them adopt more economical driving habits.

OPTIMISED AERODYNAMICS

With its more streamlined profile, Discovery Sport is one of the most aerodynamic Land Rover vehicles. A unique 18” alloy wheel is available for optimised aerodynamics.

LIGHTWEIGHT MATERIALS

To optimise vehicle performance and efficiency, Discovery Sport has been developed using lightweight materials and technologies. The vehicle has been designed with key weight-saving technologies including an optimised steel body construction, aluminium bonnet, roof and side panels, lightweight aluminium suspension components and a magnesium cross-car beam and front end carrier.

The 4 Wheel Drive (4WD) components have also been optimised for weight. The interior has also been designed with efficiency in mind, with optimised seat structures which use laser-welded high tensile steel.

E-CAPABILITY**

Land Rover has begun producing specific derivatives that deliver the lowest possible CO₂ emissions. These are called E-capability and are denoted by a Blue SPORT badge on the rear of the vehicle.

With our E-capability solutions, CO₂ can be as low as 123g/km when you choose a 2 Wheel Drive (2WD) manual eD4 150PS or 129g/km on a 4WD manual TD4 150PS diesel engine, ensuring your vehicle is as efficient as possible.

LIFE CYCLE ASSESSMENT

In order to minimise the vehicle’s overall ecological impact, Discovery Sport is designed with a life cycle approach, aiming to increase the environmental impact by considering the entire life cycle of the vehicle: from development and manufacturing, through customer use, to end-of-life recycling and re-use.

Each element of the life cycle was analysed with a view to consuming fewer natural resources, using more sustainable materials and minimising the generation of waste.

*Where fitted. **Engine availability varies between markets. Please contact your nearest Land Rover Retailer for more information.
DISCOVERY SPORT OFFERS YOU GREAT OPTIONS AND FLEXIBILITY TO PERSONALISE YOUR VEHICLE.

The following pages take you through a logical series of steps to make your vehicle suit your lifestyle. There are several choices: from selecting your engine and model to exterior and interior colours, wheels, finishes and those detailed touches to enable you to personalise your vehicle.

If you’d like to bring your options to life, go to our online configurator at landrover.com

1. **STEP 1** CHOOSE YOUR ENGINE
   You can select from a range of powerful petrol or diesel engines.

2. **STEP 2** CHOOSE YOUR MODEL
   Compare the standard features on each model.

3. **STEP 3** CHOOSE YOUR COLOUR
   There’s a wide range on offer to enable you to express yourself.

4. **STEP 4** CHOOSE YOUR WHEELS
   There’s a range of styles, each designed to complement the bold exterior.

5. **STEP 5** CHOOSE YOUR INTERIOR
   When you choose your interior, you can personalise it by selecting your optimum seat configuration, the ideal colour combination of seats, materials and your preferred finisher. These three considerations help celebrate and enhance a sense of your own style.

6. **STEP 6** CHOOSE YOUR ACCESSORIES
   This range of stylish and practical accessories can be tailored to suit any lifestyle.

**TECHNICAL DETAILS**
Technical information and data for dimensions, performance and specifications.

Visit landrover.com to configure your vehicle online.
DRIVELINE, ENGINE PERFORMANCE AND FUEL ECONOMY

The superbly engineered range of petrol and diesel engines on offer are paired with a state-of-the-art 9-speed Automatic Transmission or a 6-speed Manual Transmission. With our E-capability solution, CO2 can be as low as 123g/km when you choose a 2 Wheel Drive (2WD) manual or 129g/km on a 4 Wheel Drive (4WD) manual TD4 150PS diesel engine, ensuring your vehicle is as efficient as possible.

EACH MODEL HAS A CHOICE OF ENGINES AND UNIQUE FEATURES

This guide will help you to select your ideal Discovery Sport. On the following pages you’ll see the key standard features for each model.

2

DISCOVERY SPORT PURE

- Front grille with Dark Atlas surround
- Body-coloured front door handles
- Dark Atlas fog light surrounds, front bumper and Discovery script (bonnet and tailgate)
- 17" X 7 split spoke ‘Style 171’ alloy wheels
- Xenon headlights
- 6-way manual front seats
- Meridian™ Sound System with 10 speakers (Touch).
- Standard features may differ depending on market availability. To view the full list of standard and optional features available on each Discovery Sport derivative please see the accompanying Specification and Price Guide or visit landrover.com

contents of Pure, plus:

- Leather steering wheel
- Rear Parking Aid
- Automatic headlights with rain sensing wipers
- Cruise Control and Speed Limiter
- Two-zone Climate Control
- Ambient Interior Lighting
- Navigation.

replaces Pure content:

- Dark Atlas grille with Narvik Black surround
- Dark Atlas fender vents
- Body-coloured mirror caps
- Dark Techno Silver tow eye covers
- 18" 5 split spoke ‘Style 511’ alloy wheels*†
- Power fold, heated door mirrors with approach lights
- Land Rover Enhanced Sound System 190W with 10 speakers.

Vehicles shown with optional Xenon headlights with LED signature and fog lights.

*Model images shown are not applicable to E-capability specification models. E-capability models will feature 18" 5 split spoke ‘Style 521’ alloy wheels only. †Si4 290PS models will feature 19" 5 split spoke ‘Style 525’ with Dark Satin Grey finish alloy wheels.

DISCOVERY SPORT SE

Contents of SE, plus:

- Front fog lights
- Auto High Beam Assist (AHBA)
- Front Parking Aid
- Rear View Camera
- Climate Control with high level vents to second row.

Replaces SE content:

- Atlas fender vents and grille with Narvik Black surround
- White Silver tow eye covers
- Xenon headlights with LED signature
- 19” 5 split-spoke ‘Style 521’ alloy wheels*†
- Perforated grained leather seats
- 10-way electric front seats
- Meridian™ Sound System 380W with 10 speakers plus subwoofer (Touch).

Contents of HSE, plus:

- Park Assist
- Traffic Sign Recognition
- Lane Keep Assist and Driver Condition Monitor
- Blind Spot Monitor and Reverse Traffic Detection
- Powered gesture tailgate
- Keyless Entry
- Configurable Ambient Interior Lighting
- Illuminated aluminium front treadplates with Discovery script.

Replaces HSE content:

- Noble Plated upper and lower door handles
- Atlas fog light surrounds, tailgate finisher and Discovery script (bonnet and tailgate)
- 19" 9 spoke ‘Style 902’ with Diamond Turned finish alloy wheels*‡
- Perforated Windsor leather seats
- 12-way electric front seats with memory
- Auto-dimming, power fold heated door mirrors with memory and approach lights.

‡Si4 290PS models will feature 20” 5 split-spoke ‘Style 511’ with Gloss Black finish alloy wheels.

Vehicles shown with optional Xenon headlights with LED signature and fog lights.

DISCOVERY SPORT HSE LUXURY

Contents of HSE, plus:

- Park Assist
- Traffic Sign Recognition

59
PERSONALISING THE EXTERIOR

DYNAMIC DESIGN PACK

Bold. Arresting. Discovery Sport has been designed without compromise. Exterior enhancements include a new front and rear design with new contoured side mouldings which form a dramatic presence. This has been augmented with a new Black mesh design for the front grille and side vent. Distinctive Chrome exhaust finishers* together with a Red SPORT badge further enhance the appearance.

Carefully selected interior touches add to the impact of your chosen colourway, so too does the use of such materials as perforated grained leather or perforated Windsor leather.

Premium details include contrast micropiping on the seats and headrests, a perforated leather steering wheel and unique textured finish to the door inserts and facia mid-section. Depending on your chosen colourway, Dark Grey or Carmine Red Brushed Aluminium centre stack side rails complete the look. The interior is further enhanced with aluminium sport pedals.

PERSONALISING THE EXTERIOR – ACCENT PACKS

In addition to the standard finishes on Discovery Sport, you can tailor the exterior to suit your personal taste.

BLACK DESIGN PACK

The Black Design Pack gives the overall design of the vehicle a more assertive appearance, with exterior elements changed to Narvik Black and a choice of distinctive Gloss Black alloy wheels.

- Narvik Black grille and surround
- Narvik Black fender vents
- Narvik Black mirror caps
- Narvik Black Discovery script (bonnet and tailgate)
- Black contrast roof
- Choice of 18", 19" and 20" Gloss Black alloy wheels.

The Black Design Pack gives the overall design of the vehicle a more assertive appearance, with exterior elements changed to Narvik Black and a choice of distinctive Gloss Black alloy wheels.

GRAPHITE DESIGN PACK

The Graphite Design Pack allows you to change individual elements of the vehicle to Dark Atlas, augmented with a Grey contrast roof and a choice of striking Gloss Dark Grey alloy wheels.

- Dark Atlas grille
- Dark Atlas fender vents
- Narvik Black mirror caps
- Dark Atlas Discovery script (bonnet and tailgate)
- Grey contrast roof
- Choice of 18", 19" and 20" Gloss Dark Grey alloy wheels.

The Graphite Design Pack allows you to change individual elements of the vehicle to Dark Atlas, augmented with a Grey contrast roof and a choice of striking Gloss Dark Grey alloy wheels.

Visit landrover.com to configure your vehicle online.
Now you have chosen your Discovery Sport model, you can select your exterior paint colour. From rich, deep lustres to incandescent metallic patinas, our paints incorporate the latest in pigment technologies. Our solid paints produce a deep flat colour. Our metallics deliver a sparkle finish that is sure to catch the eye. And our premium metallic paints enhance both the colour and the intensity of the sparkle or sleek metallic finish to give your vehicle even more presence.

The availability of exterior paint colours varies by model and by time of year. Please contact your nearest Land Rover Retailer for further details.

Technical Details

Discovery Sport is so capable and adaptable it can get straight to work across a huge variety of vastly differing conditions and roles. Even so, some owners want to add their own stamp of individuality by tailoring their Discovery Sport to their specific needs with a range of stylish, practical accessories that are tough, versatile and bring an opportunity for personalisation.

Importantly, these accessories can be added by your Land Rover Retailer at any stage during the vehicle’s life – not just when it’s new. Naturally, Land Rover Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

Accessory availability may differ depending on market. Please contact your nearest Land Rover Retailer for more information.

Vehicle shown above is HSE Luxury in Yulong White.

A WORLD OF LAND ROVER

LAND ROVER EXPERIENCE

Ever since its inception, Land Rover has been ready for anything. Its legendary capability has seen it tackle the most demanding of terrains, in the most difficult conditions. Its versatile interior has become synonymous with comfort and greater loadspace. And its ‘can do’ attitude has made it the most welcome of vehicles across the globe.

You can be part of the Land Rover story at one of our Land Rover Experience Centres. You can see how each and every one of these iconic vehicles is built. You can take one out onto off-road tracks where your driving skills will be put to the test. Or you can go even further on one of our Adventure Travel holidays to such countries as Tanzania, Iceland or Morocco.

Each issue is filled with the latest Land Rover news and stories. We explore how each vehicle, inspirational journeys and opinions from international experts.

LAND ROVER ONELIFE

Getting the keys to your very own Land Rover has never been so simple. And it's more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control. Please speak to your nearest Land Rover Retailer to find out more.

For more information, visit landrover.com/onelife

FLEET & BUSINESS

Distinctive, capable and versatile, all Land Rover vehicles deliver low total cost of ownership through strong residual values, competitive service, maintenance and repair costs, and impressive fuel economy and CO2 emissions.

We are also committed to providing a totally customer-focused after-sales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, wherever you happen to be.

For further details please consult your nearest Land Rover Approved Retailer for more information.

ROADSIDE ASSISTANCE

Land Rover Assistance provides assistance in mosting emergencies, from immobilisation due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, whenever you happen to be.

For further details please consult your Warranty Benefits handbook, contact your nearest Land Rover Approved Service Centre or visit landrover.com/support
