Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.
NEW RANGE ROVER EVOQUE

New Range Rover Evoque’s dramatic, confident and sophisticated design is in complete harmony with the simplicity of its intuitive technologies and supreme levels of functionality. Sophistication and space are abundantly apparent in its beautifully appointed interior. Whilst best-in-class off-road capability adds greatly to the composure of your drive. New Range Rover Evoque. Time to make a statement.

Vehicle shown is First Edition in Nolita Grey with optional 21" wheels fitted.

Vehicles shown are from the Land Rover global range. Specifications, options and availability may vary between markets and should be verified with your local Land Rover Retailer. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted.
“When Range Rover Evoque made its debut back in 2011, it transformed the world of compact SUVs. New Range Rover Evoque is set to continue that remarkable journey. Its confident pared-back exterior and modern clean interior effortlessly unite to create a truly outstanding vehicle. One that will always get admiring looks.”

Gerry McGovern
Chief Design Officer, Land Rover
DESIGN
New Range Rover Evoque embraces the continuation of our modernist design philosophy creating a bold evolution. With its distinctive coupé-like silhouette, characterful rising belt line and unique personality, Range Rover Evoque is a compelling successor to the vehicle that captured hearts all over the world. Detail design highlights include flush deployable door handles, optional 21" wheels1 and Matrix LED headlights with Animated Directional Indicators2 bringing a higher level of sophistication and modernity. See page 8 for details.

REFINEMENT
Exemplary levels of refinement help to create new Range Rover Evoque. Optional Adaptive3 and Configurable Dynamics4 ensure that its handling is confident and sure-footed. A broad range of powertrain options and a 9-speed Automatic Transmission provide an efficient delivery of power regardless of the terrain or weather conditions. The perfect balance between effortless capability and on-road refinement make Range Rover Evoque a joy to drive. The efficient Plug-in Hybrid Electric Vehicle (PHEV) adds the benefits of a whisper quiet electric powertrain, creating a Range Rover Evoque more relevant than ever to motoring today and the future. See pages 12 and 20 for details.

CAPABILITY
The vehicle’s on and off-road handling combined with all-weather capability guarantee it delivers a confident and assured drive, no matter what the conditions. Best-in-class departure angle and wading depth, Terrain Response 24, optional ClearSight Ground View5 and the Sports Command Driving position enhance those capabilities. The vehicle’s All Wheel Drive (AWD) system, along with the improved Active Driveline6 feature, help to improve traction and off-road capability. See page 14 for details.

INTERIOR ENVIRONMENT
Our modernist design philosophy continues throughout this roomy luxurious interior. Uncluttered surfaces, reductive line work and carefully curated premium materials come together to create a sophisticated and highly desirable cabin. Improved interior packaging achieves optimum ergonomics to give greater comfort and control while optional Touch Pro Duo7 and capacitive switches help enhance this environment. Range Rover Evoque features innovative technology, such as Smart Settings8 which recalls your personal vehicle preferences and automatically configures your Range Rover Evoque as you left it. Other features include optional Cabin Air Ionisation to improve air quality and remove allergens. See page 11 for details.

TECHNOLOGY
New Range Rover Evoque uses some of our most intuitive and innovative technologies to date. Optional features such as Touch Pro Duo9, a 12,3” Interactive Driver Display, Head-up Display, a Meridian™ Surround Sound System, Click and Go integrated rear seat entertainment and Smartphone Pack all add greatly to your enjoyment of the vehicle. The optional ClearSight interior rear view mirror10 provides an unobstructed rear view regardless of objects that would normally disrupt it. Just one in a suite of driver assistance features making every journey safer and more relaxing. See page 23 for details.

PLUG-IN HYBRID ELECTRIC VEHICLE (PHEV)
Plug-in Hybrid Electric Vehicle (PHEV) technology delivers a whisper quiet electrified powertrain to Range Rover Evoques undoubted capabilities, making the vehicle more relevant than ever.

1Only available with Adaptive Dynamics. Not available on D150 or P300e engines. 2Only available with Automatic Headlight Levelling. 3Not available on D150 or P300e engines. 4Automatic Transmission only. Not available on P300e engine. 5Available as part of the 360° Surround Camera. Only available with Auto-dimming, power fold, heated door mirrors with approach lights. 6D240 and P300 engines only. 7Only available as part of Connect Pro. Only available with Navigation Pro. 8Customers who wear varifocal or bifocal lenses may have issues adjusting to the mirror’s digital mode. The normal mirror mode, however, can be used at any time. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times. Meridian is a registered trademark of Meridian Audio Ltd. Features and their availability may differ by vehicle specification and market. For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your local Land Rover Retailer.
Range Rover Evoque redefines a new level of refinement in a vehicle that is so instantly recognisable. Outstanding proportions deliver a dramatic silhouette and stance, truly conveying Range Rover Evoque’s distinctive appearance. The characterful roofline and rising waist are amplified by a strong dynamic attitude, combined with pronounced shoulder and powerful wheel arches.

Fewer lines, cleaner surfaces and a high level of precision heighten the modernity and sophistication of this emotionally engaging design. Precise details in the front and rear graphics, with slimmer signature LED headlights add to a sleek and contemporary appearance. New Range Rover Evoque; bold, compelling and emotionally engaging, redefines the compact luxury SUV.
A dynamic interpretation of Range Rover DNA creates a sporting, cosseting interior. Our philosophy of reduction is amplified to remove visual clutter and embrace the latest technology. The next generation Range Rover Evoque interior pays homage to the original while firmly looking forward; simple, elegant lines and sophisticated surfaces work in harmony with contemporary materials to ensure a tailored and compelling environment.

Windsor leather, Kvadrat premium wool blends, Eucalyptus fibre textiles. These are just some of the materials that now furnish our interiors. Sustainable, breathable and responsibly sourced, they help create the most comfortable and sophisticated of spaces. Details including precise stitching on the facia add to the sophisticated surfaces, whilst intuitive technologies ensure the interior is clutter and fuss free.

The choice of an optional Touch Pro Duo system with its upper and lower Touchscreens enhances the cabin’s clean look. The sliding panoramic roof enables you to fill the cabin with light and fresh air at the touch of a button. Configurable Ambient Interior Lighting enhances the ambience, added to which, the interior space has been optimised for the stowage of small items such as a smartphone, tablet or water bottle.

1Automatic Transmission only.  2Selecting sliding panoramic roof option will reduce front and rear headroom.

All in car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.

Interiors shown are First Edition and R-Dynamic HSE with optional Cloud Kvadrat Premium textile and Dinamica® suedecloth seats with Cloud/Ebony interior.
PERFORMANCE AND CAPABILITY

ENGINES

From power and sheer driving pleasure to fuel economy and refinement, there is a range of Ingenium engines available for Range Rover Evoque and each has been optimised for specific attributes to cater for all needs. All engines are equipped with Stop/Start technology and smart regenerative charging; this feature harvests kinetic energy from deceleration to charge the battery for maximum economy, especially during urban driving. For engine availability see page 56.
TRANSMISSION
To ensure that you are always in the optimum gear, maximising fuel efficiency and acceleration, Range Rover Evoque’s 9-speed Automatic Transmission has nine closely spaced ratios. Gear changes are almost imperceptible and shift schedules intelligently adapt to your driving style. For even greater driver involvement and increased fuel economy, choose the 6-speed Manual Transmission\(^1\). This lightweight, highly advanced gearbox uses an advanced direct lubrication system to reduce friction and drag.

PLUG-IN HYBRID ELECTRIC VEHICLE (PHEV)
Whether it’s conquering the commute or venturing out with friends for an action-packed weekend, our Plug-in Hybrid Electric Vehicle’s (PHEV) powertrain tailors to your drive. That means greater flexibility, and efficiency, for whatever lies ahead. Range Rover Evoque PHEV combines a conventional engine with an electric motor and a battery, offering all the advantages of electric emission-free motoring combined with the additional range assurance of a fuel tank.

With public charging points being made increasingly available in many towns and cities, you can now charge your vehicle more readily than ever. Further, regenerative braking helps convert energy into electricity, which is then fed back into the battery. The vehicle seamlessly selects and blends the engine with the electric motor, offering optimum performance and high-efficiency, particularly when driving in the city.

MILD HYBRID ELECTRIC VEHICLE (MHEV)
MHEV\(^2\) is a mild hybrid system that harvests and stores energy normally lost during vehicle deceleration and intelligently redeploy it to assist the engine to maximise efficiency. It incorporates an enhanced Stop/Start system that enables the engine to shut down while the vehicle decelerates.

\(^1\)Only available on D150 engine.  \(^2\)Automatic Transmission only. Market dependent.
EVERYDAY CAPABILITY

There are times when the inherent capability of a Range Rover Evoque truly comes into its own. Like now. Driving downtown, a thick blanket of snow has brought the city to a standstill. With the roads icy, you select All Terrain Progress Control (ATPC)*. This makes the journey to your favourite breakfast spot effortless. The coffee alone is worth the trip.
A pop-up restaurant has just opened on the outskirts of the city. It’s about an hour’s drive away but you’ve heard that the food is outstanding. The landscape gets wild, but Terrain Response 2* means that you barely notice. The meal is a memory in itself.

*Automatic Transmission only. Not available on P300e engine.
EXTRAORDINARY CAPABILITY

From Lone Pine, California, to the Ice Academy in Sweden, Range Rover Evoque’s capability will take you anywhere. Class-leading technologies such as ClearSight Ground View and All Wheel Drive (AWD) ensure you tackle off-road conditions with the utmost confidence.

Continue reading to discover our full range of features.

Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.

Vehicle shown is HSE in Yulong White with optional features fitted.
ALL WHEEL DRIVE

Range Rover Evoque features All Wheel Drive (AWD) to ensure you always enjoy a confident drive both on and off-road. The system intelligently controls torque distribution between the front and rear axle via an electronically controlled multi-plate clutch. Drive torque is distributed across the front and rear axle to fully utilise the available traction from all four tyres. On slippery surfaces, such as grass and snow, torque can be balanced between the front and rear wheels to maximise traction. In extreme conditions where the front or rear wheels lose traction, up to 100 percent of engine torque can be distributed to the opposite axle for optimum grip. The AWD system combines with Electronic Traction Control (ETC) to deliver a sure-footed driving experience in even the most challenging situations.

TERRAIN RESPONSE

Terrain Response 2 takes the capabilities of the award-winning system to a new level. This features an automatic setting which monitors the current driving conditions and systematically selects the most suitable terrain setting. You can manually override the system should you wish.

CLEARSIGHT GROUND VIEW

Optional ClearSight Ground View allows even greater levels of confidence when driving off-road or even in challenging urban situations. This feature displays a camera view of the front underside of the vehicle onto the large central Touchscreen – in normal circumstances this area would be invisible to the driver but ClearSight Ground View effectively makes it possible to ‘see through’ the bonnet. This helps you to be aware of any obstructions such as rocks or low walls and manoeuvre safely around them. ClearSight Ground View is offered in conjunction with 360° Surround Camera and makes driving Range Rover Evoque on or off-road even more satisfying.
Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.

Vehicle shown is R-Dynamic HSE in Seoul Pearl Silver with optional features fitted.
WADE SENSING
Unique to Land Rover, optional Wade Sensing uses ultrasonic sensors in the door mirrors to visually and audibly alert the driver if the water approaches the vehicle’s class-leading wading depth of up to 600mm. It does so by providing real-time pictorial information via the Touchscreen about its depth in relation to the vehicle and its maximum wading capability.

ALL TERRAIN PROGRESS CONTROL (ATPC)
All Terrain Progress Control (ATPC) is a state-of-the-art system that enables you to set and maintain a steady speed in challenging conditions such as slippery surfaces, including: mud, wet grass, ice, snow and dirt roads. Operating like a conventional cruise control system, it functions between 1,8km/h and 30km/h, enabling you to maintain full concentration on the road ahead.

HILL DESCENT CONTROL
Land Rover’s patented Hill Descent Control (HDC) assists the driver with the controlled descents of difficult slopes. It does so by maintaining a constant speed and applying braking separately to each wheel. Hill Launch Assist ensures the vehicle doesn’t roll backwards as it pulls away on an incline. The vehicle also utilises Gradient Release Control, which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake.

LOW TRACTION LAUNCH
Providing you with optimum torque control when you move off from a standstill, Low Traction Launch enhances capability in slippery conditions like wet grass, snow and ice. The system remains active until the car reaches 30km/h – then Range Rover Evoque seamlessly blends back into the selected driver mode.
REFINED PERFORMANCE

TORQUE VECTORING BY BRAKING¹
Torque Vectoring by Braking delivers controlled, responsive cornering by reducing near-limit understeer through controlled braking of the inside wheels.
DRIVELINE DISCONNECT
Range Rover Evoque’s All Wheel Drive (AWD) system has Driveline Disconnect technology. This allows the driveline to operate in Front Wheel Drive mode when cruising to reduce drag losses and maximise fuel efficiency. The driveline reconnects with an impressive response time when AWD is required to ensure Range Rover Evoque’s traction and handling are not compromised.

ACTIVE DRIVELINE
In addition to Driveline Disconnect, D240 and P300 come standard with Active Driveline technology which delivers even greater levels of traction, stability and composure in challenging conditions. There is also increased vehicle agility under on-road conditions due to the vectoring capability that the Active Driveline system is able to provide. Where driving conditions require it, both rear clutches are fully locked to provide the same effect as a traditional locking rear differential – maximising the car’s stability to increase capability.

ADAPTIVE DYNAMICS
The optional Adaptive Dynamics system delivers both precise dynamics and a supple ride by monitoring wheel position and body movements. To do this, the system constantly analyses acceleration, steering, throttle and brake pedal activity. The electronically controlled dampers adjust 100 times a second to optimise the suspension settings and provide the optimum balance between comfort, refinement and agility at all times.

CONFIGURABLE DYNAMICS
As an addition to Adaptive Dynamics, Configurable Dynamics is available to enhance either refinement and comfort or the vehicle’s performance. Configurable Dynamics allows you to configure Range Rover Evoque’s throttle mapping, gearbox shift points, steering settings and suspension to suit your driving needs.

1Automatic Transmission only. 2D240 and P300 engines only. 3Not available on D150 or P300e engines. 4Only available with Adaptive Dynamics. Not available on D150 or P300e engines.

Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.
To celebrate the launch of new Range Rover Evoque, we have created a limited edition watch with Zenith®. Featuring a 41mm titanium case, elite movement, silicon pallets and lever, the DEFY CLASSIC has been inspired by the vehicle’s dramatic alloy wheels, with a diamond-cut pattern on the strap. Only 200 of this most singular watch will ever be produced. To discover more, please visit www.zenith-watches.com.
Delivering a wealth of information and entertainment, every Range Rover Evoque is equipped with our InControl infotainment system, Touch Pro. It features intuitive and advanced integrated technologies to ensure everyone can make the most of their journey. Technologies such as the Voice Recognition System understand clearly spoken instructions, so you can concentrate on the road ahead without any distractions.

**TOUCH PRO**
The standard 10" Touchscreen at the heart of the centre console supports tap, swipe and pinch-to-zoom gestures and delivers our richest ever audio-visual entertainment. To enhance the in-car experience, Touch Pro offers customisable homescreens and fast response times as well as voice control. Multi-tasking is also made easy thanks to the Interactive Side Panel. Touch Pro can be further enhanced by adding the connectivity package, Connect Pro.

**TOUCH PRO DUO**
The optional 10" dual high-definition Touchscreens allow the user to view required information whilst simultaneously being able to interact with additional features, for increased flexibility and efficiency of use. For instance, you can use the navigation system in the upper screen whilst playing media on the lower screen. Direct access to cabin and seat temperature controls are also available via the multi-function dynamic dials.

**INTERACTIVE DRIVER DISPLAY**
Range Rover Evoque ensures you’re always entertained, informed and connected. It features an optional 12,3" high-definition Interactive Driver Display that can receive and project a vast amount of driving information, entertainment and active safety data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin-sharp graphics.

**HEAD-UP DISPLAY**
To help reduce distraction or the need for you to take your eyes off the road, Head-up Display is an option that presents key vehicle data such as your speed, gear position and navigation directions on the windscreen. It features crystal clear full-colour graphics in high resolution, enabling you to see all driver inputs and information with ease. It can display important information from the Touchscreen including phone information. The feature can be turned on and off dependent on driver preference.

*Automatic Transmission only.*

All in-car features should be used only when safe to do so. Drivers must ensure they are in full control of the vehicle at all time.

Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.

Interior shown is R-Dynamic HSE with optional Cloud Kvadrat Premium textile and Dinamica® suedecloth seats with Cloud/Ebony interior.
CONNECTIVITY

Land Rover’s suite of standard and optional connectivity features ensures that you and your vehicle are linked seamlessly and securely to the outside world. The standard Remote App enables you to interact with the vehicle remotely. Optional Smartphone Pack allows vehicle optimised apps on your smartphone to be controlled through the Touchscreen, including your contacts, calendar and music player. Optional Navigation Pro1, Connect Pro2 and Secure Tracker make sure the Land Rover experience is more enjoyable than ever.

Vehicle shown is First Edition in Nolita Grey with optional 21" wheel fitted.
STANDARD FEATURES

REMOTE APP

The InControl Remote App provides information on your vehicle and enables you to interact with it even when you are not with your vehicle. Compatible with most smartphones and smartwatches, this service includes:

Remote Lock/Unlock - Lock or unlock your doors remotely with the click of a button. Simply press the ‘lock’ button on the Vehicle Security screen of the Remote smartphone app to single lock the doors, arm the alarm, fold in the door mirrors (if power fold door mirrors are fitted) and close the windows. Press the ‘unlock’ button to unfold the door mirrors, turn on the dipped headlights and cause the hazard lights to flash twice.

Remote Climate - Prepare your Range Rover Evoque in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.

Beep/Flash - This feature turns on your Land Rover’s hazard lights, dipped headlights and sounds an audible alert to help you locate your vehicle in a crowded car park.

Journey Tracking - This opt-in feature can automatically record your journey history including your route and mileage statistics. This information can be exported by email to use for expense reporting and can be exported to a spreadsheet.

Vehicle Status Check - Check current fuel level and range, and the status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.
OPTIONAL FEATURES

SMARTPHONE PACK

By screen sharing with Range Rover Evoque’s InControl infotainment system, the Smartphone Pack helps you stay connected to your smartphone even while in the car. Featuring InControl Apps technology, this Pack allows vehicle-optimised apps on your Android™ or Apple™ smartphone to be controlled through the Touchscreen, including your contacts, calendar and music player, via a USB cable.

InControl Apps present a vehicle-optimised, interactive set of apps that enable media streaming, cloud and location-based services and more - via the USB port.

Android Auto™ was designed with safety in mind. With a simple and intuitive interface, it is designed to minimise distraction so that you can stay focused on the road. Simply connect your Android smartphone via a USB and control compatible apps on the in-car Touchscreen.

Apple CarPlay® is also designed for increased safety, enabling the use of apps while allowing the driver to concentrate on the road ahead. Connect your Apple smartphone to your car to use compatible apps such as maps, messages and music through the Touchscreen.

Android™ is a trademark of Google Inc. Apple Watch® and Apple CarPlay® are registered trademarks of Apple Inc., registered in the US and other countries.

InControl features, options and their availability remain market dependent – check with your Land Rover Retailer for local market availability and full terms.

Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.
OPTIONAL FEATURES

NAVIGATION PRO

Range Rover Evoque’s optional navigation system, Navigation Pro, allows you to save your favourite places, use tap, swipe and pinch-to-zoom gestures for simple map exploration and display a choice of either 2D or 3D crystal clear map graphics. You can also keep maps up-to-date with the latest release with Map Care. Included with Navigation Pro, Traffic Sign Recognition keeps you informed and aware on the road by displaying speed limits and no overtaking signs in the instrument cluster, where they can easily be seen. Adaptive Speed Limiter uses Traffic Sign Recognition information to adjust your vehicle’s speed accordingly by using the cruise control system. Navigation Pro must be ordered with Connect Pro.

CONNECT PRO

Connect Pro consists of 4G Wi-Fi Hotspot, Pro Services and Smart Settings. It’s designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey whilst remaining connected to the world.

4G Wi-Fi Hotspot

Provides in-car access to the Internet, enabling up to eight wireless devices to be used simultaneously in the car. Passengers can connect through the vehicle’s wireless network to surf, work, update social media and stay entertained throughout the journey.

Pro Services

- **Real Time Traffic Information**: Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.
- **One-box Search**: Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.
- **Online Routing**: While you’re on your way to a destination the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.
- **Planning Routes and Door-to-Door Routing**: Before setting off, use the Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle’s navigation screen. When arriving at a car park, it isn’t always clear how to get to your final destination. As you exit the vehicle, the Navigation Pro system will automatically hand over to the Route Planner app on your smartphone. You can then access directions on how to get there via public transport or on foot. You are always connected – every step of the way, right to the door.
- **Commute Mode**: Allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.
- **Parking Service**: As you approach your destination, you can see where parking is available. Simply tap on your preferred car park and the navigation system updates to direct you to it.

- **Online Media**: Allows for the aggregation of numerous content providers and their personalised content—such as Deezer and TuneIn—that gives access to more than 40 million music tracks and four million on-demand programmes and podcasts. For the first time, these can be directly streamed from the vehicle without the need for a smartphone—providing a seamless and integrated experience.

**Smart Settings**

Designed to deliver a truly personalised experience and reduce driver distraction, Smart Settings combines a number of features.

- **Profile**: The system automatically identifies each driver using their key and phone, and can remember a number of settings saved to their profile. It can select your preferred seat and mirror positions, as well as which media to play at the start of your journey.

- **Learning**: With the ‘Learning’ function, Smart Settings can also learn and automate your preferences, based on your habits, past routines and the current temperature—including whether you like a warm steering wheel or heated seats on a morning commute.

---

1 Only available with Connect Pro and Traffic Sign Recognition and Adaptive Speed Limiter. 2 Only available with Navigation Pro. 3 Online functionality and Wi-Fi connectivity is dependent on the installation of a micro SIM with suitable data contract. 4G Wi-Fi Hotspot, and Pro Services contain subscription services that can be extended after the initial term advised by your Land Rover Retailer. 5 InControl features, options and their availability remain market dependent—check with your Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.
A vehicle’s cabin is the ideal place within which to experience your personal choice of music and Range Rover Evoque has three different audio systems to bring your music to life:

**SOUND SYSTEM**
Outstanding acoustic range through six speakers.

**MERIDIAN™ SOUND SYSTEM**
Great definition, crystal clear highs and full, deep bass – delivered through the careful arrangement of 10 door-mounted speakers and a dual channel subwoofer.

**MERIDIAN™ SURROUND SOUND SYSTEM**
All the fullness and clarity of a live performance delivered through an arrangement of 14 front, side and rear speakers and a dual channel subwoofer – seamlessly brought together using Trifield™ technology. Exclusive to Meridian, Trifield perfectly blends the centre and surround channels with left and right channels ensuring an optimum, consistent sound experience for each passenger.

**DAB RADIO**
The option of DAB radio technology offers improved sound quality, a wide choice of stations and live text information about the station, show and song you are listening to.
**MERIDIAN™**
Formed in 1977 in Cambridgeshire, England, Land Rover’s audio partner Meridian has pioneered many firsts including active speakers and the world’s first digital surround sound processor. Meridian’s audio technology input has helped ensure that Range Rover Evoque is the most superb space within which to experience sound. Meridian Cabin Correction technology was utilised to analyse cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds. The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.

**DIGITAL SIGNAL PROCESSING**
Brings all elements of the audio system together as one, for performance that would otherwise require significantly larger speakers.

**MERIDIAN CABIN CORRECTION**
The advanced algorithm of Meridian’s Cabin Correction tailors the sound experience to the precise acoustics of Range Rover Evoque’s interior.

**MERIDIAN DIGITAL DITHER SHAPING**
To maintain the quality of musical recordings, they are converted into a common digital format. Meridian Digital Dither Shaping ensures that digital signal conversions are made smoothly and seamlessly, preserving the finest details of the audio performance. The result is authentic musical conversion, evoking the emotions of the original recording.

**TRIFIELD**
Exclusive to Meridian, Trifield blends the centre and surround channels seamlessly with left and right channels, delivering a consistent, concert-like experience for all occupants.

DRIVER ASSISTANCE

SAFER AND EASIER

From negotiating city traffic or the motorway, to providing additional safety for you and your passengers, there’s a wealth of innovative technologies available – either as standard, optional or as part of an optional pack. Whichever you choose, you’ll find every single feature has been designed and engineered to heighten your enjoyment of the vehicle.

STANDARD FEATURES

Emergency Braking can help to prevent collisions with other vehicles, pedestrians or cyclists. If a potential frontal collision is detected, a warning is displayed giving you time to take action. A forward looking camera monitors vehicles ahead at speeds from 5-80km/h for frontal collisions, and 5-60km/h for pedestrians and cyclists. If a collision is still anticipated and you have taken no action, the system will apply the brakes to help reduce the severity of the possible impact.

Rear Camera provides improved visibility when reversing. Static lines representing the vehicle’s outer perimeter and predicted path are superimposed on the rear view image displayed on your Touchscreen.

Cruise Control and Speed Limiter allows the driver to maintain the current speed of the vehicle without the need for continued use of the accelerator pedal, helping to reduce driver fatigue. The Speed Limiter will also allow the driver to pre-set a maximum specified speed which the vehicle will not exceed. Both functions can be easily turned on or off by the driver as desired.

Driver Condition Monitor detects if you’re starting to feel drowsy and gives you an early warning when you need to take a break.

Lane Keep Assist detects when the vehicle is unintentionally drifting out of the lane, and applies a corrective torque to the steering wheel, encouraging you to guide your vehicle back.

Front and Rear Parking Aid helps make manoeuvring even easier. Sensors located in the front and rear bumpers are activated manually, or when reverse is selected. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles.
Lane Keep Assist

Front and Rear Parking Aid
OPTIONAL FEATURES

CLEARSPRINT INTERIOR REAR VIEW MIRROR

A first for Land Rover, this innovative new technology provides an unobstructed view of the road behind you regardless of objects that would normally disrupt it through the standard rear view mirror – say, for instance, passengers or large rear loads. Featuring an additional camera placed in the antenna roof pod at the rear of the vehicle, a video feed is displayed on an embedded digital display¹ in the mirror, providing a much wider and therefore improved field of view. You can use this feature in normal or display mode, the latter showing the video feed. A switch located under the mirror unit makes changing between modes simple.

¹Customers who wear varifocal or bifocal lenses may have issues adjusting to the mirror’s digital mode. The normal mirror mode, however, can be used at any time. ²Only available with Auto-dimming, power fold heated door mirrors with approach lights.

Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your nearest Land Rover Retailer for more information.
360° SURROUND CAMERA²

360° Surround Camera uses four digital cameras discretely placed around the vehicle, providing a 360° bird’s eye view on the Touchscreen. With the capacity to display several different views at the same time, this helps with various manoeuvres from parking by a kerb, to getting in and out of tight spaces and junctions. Also includes ClearSight Ground View (see page 17).
OPTIONAL PACKS

Optional packs are available featuring a range of technologies to enhance the driving experience. Park Pack assists you to park and manoeuvre safely and more easily in and out of tight spaces and into traffic that is obscured by buildings or other vehicles. While Drive Pack helps to make every journey safer and more relaxing, the Driver Assist Pack contains the most comprehensive suite of drive and park technologies.

PARK PACK\(^1\)

Park Assist makes parallel and bay parking easier by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle’s speed, whilst graphics and notifications guide you through the manoeuvres. Park Assist can also steer you out of a parallel parking space, taking all of the stress out of parking.

Rear Traffic Monitor is particularly useful when reversing out of a parking bay, the system warns you of vehicles, pedestrians or other hazards, approaching from either side of your vehicle. It will alert you with both audible and visual warnings so you know what’s behind you, even when the view is obstructed.

360° Parking Aid gives you complete confidence when manoeuvring in tight spaces. Sensors located around the vehicle are automatically triggered when Reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen showing an overhead view of the vehicle. As you park, the Touchscreen display and audio feedback indicate how close you are to obstacles.

Clear Exit Monitor helps passengers exit the vehicle safely by providing a warning of approaching hazards, such as passing vehicles and cyclists. When a passenger begins to unlatch their door, a small warning light will illuminate if an oncoming hazard is detected.

\(^1\)Not available with Driver Assist Pack. \(^2\)Only available with Auto-dimming, power fold heated door mirrors with approach lights. Automatic Transmission only.
DRIVE PACK1,2

**Adaptive Cruise Control** will keep your vehicle a safe distance from the one in front should it slow or stop when you're cruising on the motorway or travelling in slow-moving traffic. Should the vehicle in front stop completely, your vehicle will come to a smooth halt. In stop-start traffic, Adaptive Cruise Control will automatically resume following the car in front.

**High-Speed Emergency Braking** detects when a potential frontal collision with another vehicle may occur and displays a forward alert to warn the driver to brake. If the driver doesn’t react, the vehicle will deploy the brakes in order to reduce the severity of the possible impact. High-speed Emergency Braking is ready and active from 10-160km/h.

**Blind Spot Assist** can help you prevent collisions. If your vehicle detects another car in your blind spot when you begin to change lanes, a small warning light illuminates in the corresponding door mirror. Corrective torque is also applied to the steering wheel, encouraging you to guide your vehicle away from the approaching vehicle.

Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.
The Driver Assist Pack contains the most comprehensive suite of drive and park technologies. Building on both the Drive and Park Packs, the Driver Assist Pack offers additional Adaptive Cruise Control with Steering Assist and 360° Surround Camera.

*Only available with Auto-dimming, power fold, heated door mirrors with approach lights. Automatic Transmission only. Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.
Adaptive Cruise Control with Steering Assist works with you, assisting with steering, braking and acceleration as you keep your hands on the wheel and anticipate the road ahead. A camera and radar then work together to maintain a central position for your vehicle, and moderate its speed according to the behaviour of the traffic in front of you. If the vehicle ahead slows, even to a standstill – the feature automatically slows your vehicle, bringing it to a stop where necessary to maintain a relaxed and composed drive. Should you remove your hands from the wheel, the vehicle will provide a warning. If the warning is not heeded then the Steering Assist is deactivated, but the Adaptive Cruise Control will remain active.
EFFICIENT TECHNOLOGIES

SUSTAINABLE BY DESIGN

Land Rover is committed to producing vehicles that use more sustainable materials, produce less waste and use fewer natural resources as part of our approach to sustainability excellence. Range Rover Evoque’s development process has included a full life cycle assessment and has been designed to be 85 percent recyclable/re-usable and 95 percent recoverable at the end of the vehicle’s life.
ADVANCED AERODYNAMICS
The streamlined design of our latest vehicle has been carefully optimised to make Range Rover Evoque the most aerodynamic Range Rover ever.

ENGINE MANUFACTURING CENTRE
Land Rover’s Engine Manufacturing Centre, where our engines are developed, has been built to the highest environmental standard (BREEAM Excellent) and features the largest rooftop solar panel installation in the UK. Comprising of no fewer than 22,600 individual panels, which are capable of providing up to 6.2MW (enough energy to power up to 1,600 homes), the panels generate more than 30 percent of the site’s energy, reducing the plant’s CO₂ footprint by over 2,400 tonnes per year.

EUCALYPTUS TEXTILE AND ULTRAFABRICS™ SEATS
Eucalyptus textile is made from Forest Stewardship Council (FSC) certified Tencel material, and is complemented by a sustainable, breathable, performance Ultrasfabrics™ material which is manufactured using processes that conserve raw materials.

KVADRAT PREMIUM TEXTILE AND DINAMICA® SUEDECLOTH SEATS
Kvadrat premium textile is a highly durable wool-blend fabric. Exhibiting the natural characteristics of wool, it is hard wearing and comfortable for all climates, by staying cool in the heat and warm in the cold. Dinamica® suedecloth is produced from recycled polyester fibres and plastics in a process which uses no harmful chemical substances.
SAFETY

SAFE AND SECURE

Designed for optimum safety, Range Rover Evoque has been engineered to include a wealth of standard features not only to help to protect you and your passengers, but to actively help prevent accidents from happening.

Range Rover Evoque’s elevated Sports Command Driving Position provides enhanced visibility in all conditions. You can see more of the road and be easily seen by other road users; providing an enhanced feeling of safety and confidence. When fitted, All Wheel Drive (AWD) helps you stay firmly planted on the road whatever the weather or environmental conditions.
The safety of Range Rover Evoque is further enhanced by the latest technologies included as standard:

**Dynamic Stability Control (DSC)** monitors Range Rover Evoque’s dynamic behaviour, intervening to maximise vehicle stability. DSC reduces engine torque and applies braking to the appropriate wheels to correct the vehicle’s direction of travel by counteracting understeer or oversteer.

**Anti-lock Braking System (ABS)** allows the vehicle to maintain traction with the road surface whilst braking and prevents wheels from locking - thereby retaining the vehicle’s ability to steer. The system helps to shorten the braking distance.

**Electronic Brake-force Distribution (EBD)** automatically varies the braking force to each axle in order to minimise stopping distance, while still maintaining stability and the vehicle’s ability to steer.

**Electronic Traction Control (ETC)** optimises traction and stability by controlling wheel spin. The ETC system reduces torque to the spinning wheel, then applies braking to the wheel, if required.

**Cornering Brake Control (CBC)** automatically varies the braking force to each wheel when the vehicle’s brakes are applied around a corner and the limit of grip is reached. The system will prevent the vehicle’s wheels from locking up and skidding in this event through varying the braking force applied to each wheel.

**Roll Stability Control (RSC)** is integrated with DSC to reduce the possibility of rollover, while providing agility and ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover. When risk is detected, braking is applied to the outside front wheel to reduce forces which contribute to rollover.

**Emergency Brake Assist** understands when you apply the brakes quickly but without the necessary force to maximise stopping performance. It therefore boosts the brake pressure through the ABS pump to ensure you stop in time. To help reduce the risk of a collision, the Emergency Stop Signal system automatically activates the hazard warning lights during emergency braking.

**Emergency Braking** can help to prevent collisions with other vehicles or pedestrians. See page 32 for details.

**ISOFIX and Airbags** improve safety even further, two ISOFIX points for baby/child seat restraints are fitted on each side of the rear seats and a comprehensive system of six airbags including driver, passenger, side curtain and thorax airbags are standard to protect occupants.

**Pedestrian Airbag and Deployable Bonnet** - sensors in the bumper trigger an airbag to deploy from under the bonnet in the event of a collision. This releases the bonnet, allowing an exterior airbag to expand and protect pedestrians or cyclists from contact with the windscreen.

**LAND ROVER OPTIMISED ASSISTANCE**

You can make a direct call to the Land Rover Assistance team by pressing the button on the overhead console or from the Assistance screen within the InControl Remote smartphone app.

**SOS EMERGENCY CALL**

In a more serious incident, SOS Emergency Call will automatically connect you to the emergency response team who will notify the emergency services to your location. For peace of mind, this service is provided for the first ten years from date of registration.

**SECURE TRACKER**

Uses tracking technology to alert you to an attempted theft, and signals your vehicle’s location to the relevant authorities, for a timely recovery. Includes service subscription for the warranty period.

**SECURE TRACKER PRO**

Integrates authentication technology into the key fob. An alert will be sent within minutes to the Stolen Vehicle Tracking Centre if your car is stolen with non-authorised keys. Includes service subscription for the warranty period.

---

1 Market dependent.  2 Land Rover Optimised Assistance and SOS Emergency Call are subscription services that can be extended after the initial term advised by your Land Rover Retailer.  3 Requires mobile network connectivity.  4 Only available with Keyless Entry.

---

InControl features, options and their availability remain market dependent - check with your Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times. Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.

SAFETY
Vehicle shown is First Edition in Seoul Pearl Silver with optional 21" wheel fitted.
BRIGHTER LIGHTS, SAFER NIGHT-TIME DRIVING

Range Rover Evoque features all-round exterior LED lighting as standard. LED lights are designed to last the lifetime of the vehicle and are more fuel-efficient as they use less energy. The quality of light produced is closer to daylight conditions, so driving at night becomes less tiring.

The optional Premium LED headlights* feature front and rear Animated Directional Indicators, and the distinct exterior graphic of the Signature Daytime Running Lights (DRL).

MATRIX LED HEADLIGHTS

The optional Matrix LED headlights with Signature DRL* enable an Adaptive Driving Beam. By splitting the main beam into vertical strips, the adaptive beam maximises the number of high beam sections for ultimate visibility, while casting a shadow over oncoming traffic to help to prevent dazzling. The adaptive beam is also able to optimise the light distribution to suit the driving conditions of town, country, motorway or bad weather. Matrix LED headlights include front and rear Animated Directional Indicators, which reduce the time it takes other road users to recognise the intended direction of travel.

■ Standard  ○ Optional  ◊ Not Available

*Only available with Automatic Headlight Levelling.

Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.
VERSATILITY

TRULY FLEXIBLE

Range Rover Evoque has been created, engineered and built to tackle modern life in all its guises. For instance, optional Powered Gesture Tailgate* enables you to open and close the tailgate from the kerb without using your key fob or touching the vehicle. So whether you’re loading the weekly shop, or large and awkward objects, you can always do so with the absolute minimum fuss. Sensors on either side of the vehicle, rather than in the centre, ensure you can deploy the system safely from the kerb: you simply deliver a smooth upward kick movement beneath the sensor for the system to operate.

*Only available with Keyless Entry.

Vehicle shown is R-Dynamic HSE in Seoul Pearl Silver with optional features fitted. Image above features a Land Rover Leather weekender bag. Visit landrover.com/collection or contact your local retailer for more information.
Passengers can now take advantage of up to 1383 litres of luggage space which – with a 40:20:40 rear bench as standard – makes every millimetre of Range Rover Evoque a versatile and highly functional vehicle. When the seats are fully down, it can readily accommodate several suitcases so when you’re heading off for the perfect weekend getaway, you never have to compromise on space.

**Dry:** Volume as measured with VDA-compliant solid blocks (200mm x 50mm x 100mm).

**Wet:** Volume as measured by simulating the load space filled with liquid. Please refer to the accompanying Technical Specification for full details.
CABIN STOWAGE

Both driver and passenger can make use of Range Rover Evoque’s many stowage options. With an impressive 26 litres for small items, it can be adapted to suit all of your needs. The door bins have a total of 13.6 litres of capacity to handily store water bottles, the cubby box some 4.5 litres. There’s even 1.7 litres of additional room beneath the Touchscreen which is an ideal place to keep your smartphone.
ACTIVITY KEY
With the optional Activity Key you can enjoy your favourite activities, and keep your car key securely in the car. For extra convenience, you can strap the Activity Key to your wrist. The wristband is robust and fully waterproof, allowing you to take part in a range of activities from cycling to swimming. Simply place your Activity Key against the sensor on the tailgate to lock or unlock the car and deactivate or reactivate the conventional key fob.

POWER SOCKETS
There are two USB ports and a 12-volt socket located inside the cubby box. For second row occupants, a 12-volt power socket is fitted to the rear centre console and there’s a further 12-volt power socket located in the rear loadspace area. The option to add another two USB ports means that multiple electronic devices can be charged or connected on the go.

CLICK AND GO INTEGRATED BASE UNIT
With the optional Click and Go integrated base unit, rear seat passengers will be able to use their tablet devices throughout any journey. With a mounting mechanism and rear USB charger, everyone can stay connected, everywhere in the vehicle.

CABIN AIR IONISATION
This optional nanoe™ technology enhances the well-being of both driver and passengers alike. It improves the air quality within the vehicle cabin by removing allergens, viruses, airborne bacteria and associated odours. It does so by ionising particles in the air, making them attract to and neutralise the air contaminants. It can be switched on or off.

Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.
Vehicle shown is R-Dynamic HSE in Yulong White with optional features fitted.
TOWING

TOW HITCH ASSIST
Tow Hitch Assist makes coupling a trailer to the vehicle much easier by helping you visualise the hitching process. It displays the predicted path of the vehicle tow ball towards the trailer tow bar on the Touchscreen.

ADVANCED TOW ASSIST*
Optional Advanced Tow Assist allows you to control the direction of your trailer when reversing. Using the rotary dial, the system controls the vehicle’s steering to achieve the desired trailer trajectory. The Touchscreen will display both the current and desired trailer trajectory.

ELECTRICALLY DEPLOYABLE TOW BAR
The optional electrically deployable tow bar is stowed discreetly behind the bumper, providing a clean and attractive finish. Approved for up to a 2,000kg trailer load.

*Only available with Touch Pro Duo, 360º Surround Camera and Detachable tow bar or Electrically Deployable tow bar. Automatic Transmission only.
Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.
The following pages take you through a logical series of steps to make your vehicle a true expression of your individuality. You have a number of choices: from selecting your engine and model to exterior and interior colours, wheels, finishes and those detailed touches that define your character.

You can start with our online configurator at landrover.com

NEW RANGE ROVER EVOQUE OFFERS YOU GREAT OPTIONS AND FLEXIBILITY TO PERSONALISE YOUR VEHICLE.

STEP 1
CHOOSE YOUR MODEL

If you would like Land Rover designers to choose your Range Rover Evoque features for you, turn to page 54 to see our First Edition.

If you would like to specify your own vehicle, turn to page 57 where you can compare the standard features across Range Rover Evoque and Range Rover Evoque R-Dynamic.

STEP 2
CHOOSE YOUR ENGINE

You can select from a choice of 2,0 litre diesel or petrol engines.
STEP 3
CHOOSE YOUR SPECIFICATION PACK
You can individualise your Range Rover Evoque even further from a choice of superbly designed and engineered premium specification packs.

STEP 4
CHOOSE YOUR EXTERIOR
There’s a wide range of exterior options to select from; roof styles, paint colours and wheels – all of which enable you to truly express yourself.

STEP 5
CHOOSE YOUR INTERIOR
Now you have chosen your model, you can select the perfect combination of interior colours.

STEP 6
CHOOSE YOUR OPTIONS AND LAND ROVER GEAR
You can choose from a wealth of line-fit options to create the exact vehicle you require. A range of accessories which your retailer can fit is also available.
CHOOSE YOUR MODEL

SELECT YOUR FIRST EDITION

Range Rover Evoque First Edition is a truly sophisticated and seductive vehicle. Only available for one year from launch, it features myriad exclusive touches that further enhance Range Rover Evoque’s celebrated design cues. A Black contrast and Fixed Panoramic roof, Gradated Linear Dark Aluminium trim finisher with First Edition script, First Edition carpet mats and Cloud/Ebony grained leather seats with Cloud/Ebony interior are all included. First Edition includes all of the features available on the R-Dynamic SE (see page 61) plus the following as standard:

Seoul Pearl Silver

Yulong White
Engine availability:
D180 and P250 engines (see pages 58-59)

Features include:
Drive Pack - Front Fog Lights - Privacy Glass - Headlight power wash
Keyless Entry - Head-up Display - Meridian™ Sound System
ClearSight Interior Rear View Mirror - Heated steering wheel - Heated Front Seats
Configurable Ambient Interior Lighting - First Edition carpet mats*

*Nolita Grey*

Illuminated metal treadplates with First Edition script*
20" Style 5079, 5 split-spoke, Gloss Dark Grey with contrast Diamond Turned finish
Gradated Linear Dark Aluminium trim finisher with First Edition script*
Matrix LED Headlights with signature DRL

*Exclusive to First Edition. All features described as exclusive to Range Rover Evoque First Edition may become available as options in future model years.

Visit landrover.com to configure your vehicle online.
SELECT RANGE ROVER EVOQUE OR RANGE ROVER EVOQUE R-DYNAMIC
Each model has a choice of engines and distinctive features. This guide will help you to select your ideal Range Rover Evoque.
On the following pages you’ll see the standard features for each model.
Configure your Range Rover Evoque at landrover.com

RANGE ROVER EVOQUE

RANGE ROVER EVOQUE R-DYNAMIC

For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your local Land Rover Retailer.
STANDARD FEATURES

EXTERIOR FEATURES
- Flush deployable door handles
- LED headlights
- Automatic headlights
- Rear fog lights
- Rain sensing windscreen wipers
- Tailgate spoiler
- Heated door mirrors
- Approach illumination
- Evoque badge.

WHEELS AND TYRES
- 17" Style 1005, 10 spoke, Satin Dark Grey
- All-season tyres
- Tyre Pressure Monitoring System (TPMS)
- Tyre Repair System.

INTERIOR FEATURES
- Twin sliding front centre armrest
- Ambient lighting
- Twin front cupholders with cover
- Two-zone Climate Control
- Rear air vents
- Sunvisors with illuminated vanity mirrors
- Standard treadplates
- Push Button Start
- Overhead lighting console
- Overhead stowage for sunglasses.

INTERIOR TRIM
- Fabric seats
- 8-way manual front seats
- 40:20:40 rear seat fold
- Rear centre headrest
- Gradated Linear Bright Aluminium trim finisher
- Leather steering wheel
- Light Oyster Morzine headlining.

DYNAMICS
- Efficient Driveline
  - Active Driveline
  - Terrain Response 2
  - All Terrain Progress Control (ATPC)
  - Low Traction Launch
  - Hill Descent Control (HDC)
  - Torque Vectoring by Braking
  - Passive suspension
  - Hill Launch Assist
- Electronic Power Assisted Steering (EPAS)
- Dynamic Stability Control (DSC)
- Electronic Traction Control (ETC)
- Roll Stability Control (RSC)
- Electric Parking Brake (EPB).

INFOTAINMENT
- 10" Touch Pro
- Analogue Dials with Central TFT Display
- Remote App
- Sound System
- Bluetooth® connectivity.

SAFETY
- Voice control
- Brake pad wear indicator
- Emergency Brake Assist
- Anti-lock Braking System (ABS)
- Electronic Brake-force Distribution (EBD)
- Seat belt reminder
- Rear ISOFIX
- Power operated child locks
- Six airbags
- Pedestrian Airbag System
- Customer Configurable Autolock
- Passive front head restraints.

DRIVER ASSISTANCE
- Rear Camera
- Front and Rear Parking Aid
- Lane Keep Assist
- Cruise Control and Speed Limiter
- Driver Condition Monitor
- Emergency Braking.

CONVENIENCE
- Power Socket Pack 1
- Heated rear window with timer
- Electric windows with one-touch open/close and anti-trap
- Manual tailgate
- Manual dipping interior rear view mirror.

R-DYNAMIC FEATURES IN ADDITION TO STANDARD FEATURES
- 17" Style 5073, 5 split-spoke, Satin Dark Grey
- Dark Atlas RANGE ROVER bonnet script
- Dark Atlas grille with Gloss Black surround
- Body-coloured front bumper with Dark Satin Grey valance
- Burnished Copper bonnet louvres
- Burnished Copper side vents
- Dark Atlas RANGE ROVER tailgate script
- Dark Satin Grey rear bumper with body-coloured valance
- Burnished Copper exhaust finishers
- Gradated Linear Dark Aluminium trim finisher
- Black gearshift paddles
- Perforated leather steering wheel
- Ebony Morzine headlining
- Chrome treadplates
- Bright metal pedals
- Evoque and R-Dynamic badge.

Visit landrover.com to configure your vehicle online.
CHOOSE YOUR ENGINE

WHICH ENGINE IS RIGHT FOR YOU?

Petrol and diesel engines offer different strengths to suit different customer use cases.

Diesel engines offer better fuel economy over longer distances and produce more torque, which makes them the ideal choice for longer journeys, motorway cruising, towing or off-roading. Our new diesels feature such advanced technologies that they are now as clean as petrol, but also emit less CO₂.

Petrol engines are typically more powerful and produce higher revving, which can provide a more engaging and sporting driving experience. They are more refined and are better suited to shorter, stop-start journeys. Plug-in Hybrid Electric Vehicles (PHEV) meanwhile provide electric performance at lower speeds and traditional combustion performance on longer journeys.

Configure your Range Rover Evoque at landrover.com

DIESEL ENGINES

D150
Front Wheel Drive Manual
All Wheel Drive Automatic

The Ingenium 2.0 litre 4-cylinder 150PS Turbocharged Diesel engine is optimised to deliver the best fuel economy in the range.
- Low-flow direct injectors precisely control the amount of fuel that enters the combustion chamber for maximum efficiency.
- The stiff lightweight engine block with twin balancer shafts ensure inherently low levels of noise and vibration.
- Intelligent, electronically controlled, adaptive engine cooling only engages when required – minimising fuel consumption and CO₂ emissions.

D180
All Wheel Drive Automatic

The Ingenium 2.0 litre 4-cylinder 180PS Turbocharged Diesel engine produces 430Nm of torque and is optimised to deliver improved drivability and refinement.
- The high-pressure common rail direct fuel injection, exhaust variable cam timing and a high-efficiency water-cooled intercooler work in combination for a clean, efficient combustion.
- 430Nm of torque is delivered over a wide engine speed range from 1,750-2,500rpm, delivering accessible performance and strong acceleration.
- The engine features a variable geometry turbocharger that adapts to the changing flow of exhaust gases for high torque throughout the rev range and responsiveness that is uniform, progressive and reduces lag.

D240
All Wheel Drive Automatic

The Ingenium 2.0 litre 4-cylinder 240PS Twin Diesel engine, produces 500Nm of torque which improves upon performance whilst maintaining improved fuel economy.
- Series sequential twin turbochargers deliver an ideal combination of peak power performance and superior low-speed drivability.
- Upgrades include a higher pressure common rail fuel system, increased from 1,800 to 2,200 bar, and an increased fuel injector flow rate. These combine to deliver optimised fuel economy, emissions and power delivery.
- Continuously variable swirl control energises airflow at lower engine speeds and torques to improve diesel air-fuel mixing for improved combustion, with lower emissions and faster warm up.

1Market dependant. 2The figures provided are NEDC2 calculated from official manufacturer’s WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied.
PETROL ENGINES

P200
All Wheel Drive Automatic
The Ingenium 2,0 litre 4-cylinder 200PS Turbocharged Petrol engine offers improved fuel economy without compromising drivability.
- Direct fuel injection from centrally mounted solenoid injectors ensures precise delivery of fuel for highly efficient, clean combustion with low emissions.
- Intelligent Continuously Variable Valve Lift (CVVL) control manages inlet valve movement for optimal engine operation in all driving situations.
- Dual independent variable cam timing works in conjunction with CVVL to avoid valvetrain compromise, resulting in excellent power and fuel economy across the rev range.

P250
All Wheel Drive Automatic
The Ingenium 2,0 litre 4-cylinder 249PS Turbocharged Petrol engine produces 365Nm of torque and delivers impressive fuel economy and drivability.
- The intelligent Continuously Variable Valve Lift (CVVL) system varies the extent to which inlet valves are opened, reducing engine pumping losses. This lets the engine ‘breathe’ with maximum efficiency, optimising power and torque.
- CVVL works in combination with dual independent variable cam timing for ultimate operating flexibility, resulting in excellent power and fuel economy across the rev range.
- For excellent acceleration and effortless overtaking, maximum torque is available between 1.200-4.500 rpm.
- The twin scroll turbocharger is fed by an integrated exhaust manifold which increases the transfer of energy to the turbine - significantly reducing turbo lag and improving engine response.

P300
All Wheel Drive Automatic
The high performance Ingenium 2,0 litre 4-cylinder 300PS Turbocharged Petrol engine features upgrades to the boosting system.
- Delivering a peak torque of 400Nm between 1.500-4.500 rpm.
- The uprated turbocharger features a high flow compressor wheel delivering 26 percent more air, enabling a peak power output of 300PS.
- The twin-scroll turbocharger features ceramic ball bearings which reduces friction and improves transient response.

P300e
All Wheel Drive Automatic
Automatic P300e uses the combination of an advanced 1.5 litre 200PS i3 petrol engine supported by a high capacity 109PS electric motor to deliver a combined output.
- The electric motor can either supply its power in parallel with - the engine, or drive the vehicle in the manually selectable Electric Vehicle (EV) mode.
- The 80kW battery gives the vehicle an all-electric range of 68km from a full charge, capable of managing most city commutes with zero tailpipe emissions.

Black Contrast Roof
optional

Sliding Panoramic Roof
optional

Silver Contrast Roof
optional

*Selecting sliding panoramic roof option will reduce front and rear headroom.  
*Not available with Santorini Black or Narvik Black exterior colours.

*Not available with Seoul Pearl Silver exterior colour. When contrast roof colour is selected, door mirrors are always in Narvik Black.

Options specified may affect vehicle efficiency and pricing due to local taxation policy. Please configure at landrover.com or check with your local Land Rover Retailer.
**SELECT YOUR PAINT COLOUR**

Now you have chosen your preferred roof style, you can select your exterior paint colour. From rich, deep lustres to incandescent metallic patinas, our paints incorporate the latest in pigment technologies. Our solid paints produce a deep flat colour. Our optional metallics deliver a sparkle finish that is sure to catch the eye. And our optional Premium Metallic paints enhance both the colour and the intensity of the finish to give your vehicle even more presence.

Vehicle shown is R-Dynamic HSE in Firenze Red with R-Dynamic Black Exterior Pack.
BLACK EXTERIOR PACK
Range Rover Evoque's remarkable looks can be enhanced further with the optional Black Exterior Pack. The bonnet and tailgate script, grille, side fender, front and rear bumper lower valance and mirror caps are all finished in Gloss Black for an assertive appearance.

R-DYNAMIC BLACK EXTERIOR PACK
For an even more striking look, the optional R-Dynamic Black Exterior Pack builds upon the Range Rover Evoque Black Exterior Pack with the addition of a Gloss Black finish to the bonnet louvres and exhaust finishers – taking the vehicle's distinctive exterior to new heights.

Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.

Visit landrover.com to configure your vehicle online.
SELECT YOUR WHEELS

There are 12 wheel styles to choose from. Sizes range from 17" to the highly desirable 21". With distinctive design cues, each one adds its own character to the overall look of the vehicle.

SELECT YOUR LAND ROVER GEAR – ACCESSORIES

A range of stylish, tough and practical accessories is available, bringing you the opportunity to personalise your Range Rover Evoque even further. These accessories can be purchased through your local Land Rover Retailer and added at any stage during the vehicle’s life - not just when it’s new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

For more information and a complete list of options and Land Rover Gear configure your Range Rover Evoque at landrover.com and gear.landrover.com
TOURING

Cross Bars (without roof rails)
Aerodynamic profile minimises drag and wind noise. The incremental height when fitted is 93mm.

Luggage roof box
Power-click quick mounting system with integrated torque indicator for easy and secure fixation with a single-handed grip. Opens from both sides with handles on the lid and inside the box, for convenient fitting, loading and unloading. Integrated base mat for extra secure loading. Load capacity eight skis/five-six snowboards, max length of skis 205cm. Volume 410 litres. Maximum payload 75kg.\(^3\)

Tow Bar Mounted Bike Carrier – 3 Bike
The tow bar mounted bike carrier features a one hand, quick attach/release tow bar coupling mechanism and can be tilted away from the vehicle, by use of a foot pedal, to allow easy access into the rear tailgate. The tailgate can be opened with carrier in deployed/folded position. Manufactured from aluminium and other lightweight materials, the bike carrier also features a rear lighting and licence plate mount and it is lockable for security. The carrier has a folding/sliding mechanism to allow ease of stowage when not in use. A holder and ratchet function ensure bicycles are safely secured. Maximum load capacity 51kg.

Seatback Stowage - Premium Leather
Manufactured from the same Premium leather offered on the vehicle, complemented with soft touch interior lining and magnetic button clasps. Provides a convenient stowage solution for the rear of the front seats with multiple compartments for stowing small items.

Click and Go - Range
The Click and Go range is a multi-purpose seat-back system for second row passengers. The versatile Click and Go Base fixes between the headrest mountings and further attachments can be added to hold tablets, bags and shirts or jackets. Each attachment is sold separately. The base can be easily removed when not in use.

\(^1\)Cross Bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted. \(^2\)Not available with Sliding panoramic roof.

\(^3\)Maximum payload equals the load capacity of the roof mounted accessory.

Options specified may affect vehicle efficiency and pricing due to local taxation policy. Please configure at landrover.com or check with your local Land Rover Retailer.

Visit landrover.com to configure your vehicle online.
**DESIGN**

**Stainless Steel Undershield - Front**
The off-road inspired undershield, manufactured from stainless steel, features a premium Bright Polished finish for the front of the vehicle.

**Centre cap - Silver finish**
Enhances and adds style to alloy wheels. Features Land Rover logo.

**Loadspace Treadplate Finisher - Illuminated**
Manufactured from stainless steel with a Bright finish, the trunk finisher provides protection to the loadspace trim when loading or unloading and provides a premium finish to the loadspace with subtle illumination.

**Side Vents - Narvik Black**
Narvik Black side vents provide a subtle exterior design enhancement.

**Mirror Covers - Carbon Fibre**
Stunning high grade Carbon Fibre mirror covers, with a High Gloss finish, provide a performance-inspired premium styling update.

**Sport Pedal Covers**
Stainless steel Bright finish sport pedal covers are easy to fit and feature hidden fixings for a clean finish.

**Gearshift Paddles - Aluminium**
Complete the look and feel of your steering wheel with premium aluminium paddles. Gearshift paddles are machine polished, anodised and hand brushed to provide exceptional wear resistance with a premium finish.

**Sill Treadplates - Illuminated, Front**
Driver and passenger’s front door sill treadplates add style to the vehicle and protect the sill trim from scuffs and scrapes. Co-ordinates with your vehicle’s interior and subtly illuminates Range Rover script when the front doors are open.

**PET PRODUCTS**

**Loadspace Liner Tray and Luggage Divider Full Height**
Combines the loadspace rubber mat with the full height partition, to protect both your vehicle and your pet. The rubber mat is waterproof, protecting the vehicle’s loadspace floor carpet. The full height partition prevents access to the passenger compartment, while safely containing and protecting your pet.

**Spill Resistant Water Bowl**
Provides a convenient solution for use in transit or outside of the vehicle. With an anti-slip rubber base and a retention strap for securing to the loadspace ‘D’ loop, the spill resistant bowl has a capacity of 350ml.

**Portable Rinse System**
Designed to be used outside the vehicle, the portable rinse system provides a convenient solution for washing pets before loading or rinsing other equipment from bikes to wetsuits. Depending on the setting selected, this portable rinse system will deliver a minimum of two minutes of continuous water flow through a shower hose style attachment without the need for batteries or external power. The system utilises pressure captured when filling from a tap, and an integrated hand pump allows the user to pressurise if filling the water tank away from home. Featuring a Land Rover branded cover and handle, with an additional stowage bag it can be secured to the loadspace ‘D’ loops during transit.

**Foldable Pet Carrier**
The foldable pet carrier provides a safe, comfortable environment for the transportation of pets. Manufactured from a durable 600D nylon the foldable pet carrier has a lightweight metal frame and includes a quilted fabric cushion, net windows and a spring loaded locking mechanism which snaps into place when required. Windsor leather carry handles and corner pieces provide a premium finish, with a side pocket providing a convenient stowage option for other pet accessories or small items.

**Quilted loadspace liner**
This tailored liner protects all the carpeted areas of the loadspace area including the floor, second row seat backs and side walls. Manufactured from a soft quilted fabric with an integral rubber mat and detachable bumper protector it is easy to wipe clean, making it ideal for owners who regularly carry pets in the loadspace of their vehicle.

---

*Not available on R-Dynamic vehicles. *Automatic transmission only.

* iPhone and iPad® is a registered trademark of Apple Inc., registered in the US and other countries.
Electrically Deployable Tow Bar
The electrically deployable tow bar is stowed discreetly behind the rear bumper when not in use, providing a clean attractive finish. It is designed to deploy or stow in 12 seconds and is operated via a switch in the rear loadspace or by the infotainment system in the cabin. Returns to original position if any obstructions encountered during deploying/stowing. Includes integral 13 pin towing electrics (also hidden until deployed). Approved for up to 2,000kg trailer load. Includes a unique trailer light test facility which allows the driver to be able to check without assistance if the trailer lights, including reverse and brake lights, are functioning correctly. The trailer light test is activated via either a switch in the loadspace or via the touchscreen, depending on the vehicle’s specification.

Mudflaps
- Front
- Rear
Mudflaps are a popular upgrade for reducing spray and ensuring paintwork is protected from debris and dirt. Designed to complement the vehicle’s exterior styling.

Loadspace Protection Rubber Mat
Black, waterproof loadspace rubber mat with retaining lip. Offers protection of the loadspace floor.

Protective Rear Seat Cover
Protects both the rear seat bench and door linings from wet and dirt.

Rubber Floor Mats
Land Rover branded waterproof rubber mat, with retaining lip, helps to protect the rear loadspace carpet from general dirt. This waterproof mat extension covers the back of the rear seats when they are folded down.

Loadspace Retention Kit
The loadspace retention kit consists of a pack of attachments that fix into the loadspace rails via a quick lock/quick release system to help provide a comprehensive and flexible solution for retaining luggage and other items within the loadspace. The Attachment Pack includes a retractable strap with inertia reel and telescopic rod.

LIFESTYLE

iPhone Connect and Charge Dock
The iPhone connect and charge dock has been designed to allow visibility of the phone whilst charging, utilising the cup holder space in the central console. When connected the iPhone media is accessible and has the ability to be controlled via the integrated infotainment/audio system. The ‘cut-out’ design of the holder is such that home button is also accessible for use when parked. The iPhone USB charger can be easily disconnected if the USB connection is required for other use.

Land Rover Branded Child Seat - ISOFIX Base
ISOFIX Base for use with the child seat - Group 0+ (birth - 13kg)
- infant carrier VPLRS0397

Land Rover Branded Child Seat - Group 0+
For babies from birth – 13kg (approximately birth - 12-15 months)
Land Rover branded. Rearward facing on rear seat. Includes a wind/sun canopy and padded, machine washable cover. An easy, height adjustable headrest and a five-point harness with one-pull adjustment. Can be installed with the vehicle’s three-point seat belt or the child seat ISOFIX base. Approved to European test standard ECE R44-04.

Rear Bumper Protection Cover
Provides protection for the rear bumper from scuffs and scratches and helps to prevent clothing from collecting dirt when loading and unloading.

Second Row Armrest Food Warmer/Chiller
Food and drinks chiller and warmer that acts as a rear centre armrest.
With a leather-covered top, it is held in place by the centre seat belt and powered from the rear auxiliary socket. Ideal for long journeys with the family.

Windscreen Sun Shield
UV windscreen sun shield reflects the sun’s rays and helps to keep the vehicle interior cool in hot weather.

Electric cool bag
This cool bag is thermostatically temperature controlled, is powered by the 12 volt auxiliary socket and has an easy to clean interior surface. Height 380mm, length 380mm, width 220mm. Volume 14 litres.
THE WORLD OF LAND ROVER

Your Land Rover has been designed and engineered to help you make more of your world. It can take you to places other vehicles simply can’t reach in a style that cannot be matched. To celebrate the Land Rover lifestyle, we’ve put together a range of experiences, publications and the Land Rover Lifestyle Collection. There’s a world to explore. Get out there and enjoy it.

EXPERIENCE DRIVES

Bring out your adventurous side and experience Land Rover’s legendary capability for yourself. Under the expert guidance of a world-class instructor, head to the most exciting and challenging off-road terrains and take the vehicle to its limits.
landrover.com/experience

ADVENTURE TRAVEL

From the sheer exhilaration of the Arctic ice to the awe-inspiring dunes of Namibia, Land Rover Adventure Travel offers you once-in-a-lifetime experiences that bring the spirit and emotion of our vehicles to life.
landrover.com/adventure
This is a unique opportunity to step inside our state-of-the-art manufacturing facilities and see where the latest vehicles are born. Taking you behind the scenes, our expert tour guides will show you how Land Rover combines unrivalled craftsmanship with cutting-edge robotics. landrover.com/tours

Whether it’s class-leading luxury, thrilling performance or extreme all-terrain capability, Land Rover excels. Special Vehicle Operations takes this even further. Delivering the absolute pinnacle of Land Rover engineering and design, each vehicle combines peerless refinement with power and cutting-edge technology, which is why the SV badge represents so much. landrover.com/svo
Our latest range of clothing and lifestyle accessories are crafted with the same design excellence and attention to detail, as our vehicles. Inspired by our unique heritage, there is something for the whole family.

landrover.com/collection

Free twice a year for your first three years as a Land Rover owner, this award-winning magazine features the best in photography, authoritative journalism and expert insights. Onelife takes you right into the heart of exclusive experiences and extraordinary adventures, whilst keeping you up to date with the latest innovations, design and lifestyle choices.

landrover.com/onelife
Integrity. Courage. Pride. These are the values that Land Rover shares with its partners. Whether it’s the Invictus Games, Virgin Galactic, Rugby World Cup 2019™ or the British and Irish Lions, each one is driven by exceptional people. Those who push their capabilities to the very limits and champion the determination to go above and beyond.

landrover.com/partnerships

Since 1954, Land Rover is proud to have supported the incredible humanitarian work of the International Federation of Red Cross and Red Crescent Societies (IFRC). Through vehicles, funding and combined expertise, this ambitious global partnership has helped to transform the lives of over one million people, across four continents.

landrover.com/responsibility
YOUR PEACE OF MIND

CUSTOMER SERVICE
When you bring your Land Rover to us, we use cutting-edge diagnostic equipment to assess all your vehicle’s mechanical and electronic systems. Our qualified Technicians use tools specifically designed for our vehicles and only fit genuine Land Rover parts and Gear accessories. A choice of service plans are available which, together with Roadside Assistance, ensures complete peace of mind.

For further details contact your local Land Rover Retailer or search ‘Land Rover Ownership’.

LAND ROVER ROADSIDE ASSISTANCE
Land Rover Assistance provides assistance in motoring emergencies, from immobilisation due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, wherever you happen to be.

For further details please consult your Warranty Benefits handbook, contact your nearest Land Rover Approved Service Centre or search ‘Land Rover Roadside Assistance’.

LAND ROVER FINANCIAL SERVICES
Getting the keys to your very own Land Rover has never been so simple. And it’s more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control.

For further details contact your local Land Rover Retailer or search ‘Land Rover Finance’.

FLEET & BUSINESS
Land Rover is dedicated to being the premium manufacturer of choice for fleets and businesses, by providing a highly attractive range of vehicles and exemplary customer service. Distinctive, capable and versatile, all Land Rover vehicles deliver low Total Cost of Ownership through strong residual values, competitive service, maintenance and repair costs, and impressive fuel economy and CO2 emissions.

We are also committed to providing a totally customer-focused aftersales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, in the easiest and most cost-efficient way for businesses.

Search ‘Land Rover Fleet and Business’ for full details.

*When combined with electric motor. **The figures provided are NEDC2 calculated from official manufacturer’s WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO2 and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. †WLTP is the new official EU test used to calculate standardised fuel consumption and CO2 figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.

*Standard – Not Available.

Class A (17" - 20" wheel) Class B (21" wheel)

TEL (Test Energy Low) and TEH (Test Energy High) figures are shown as a range under WLTP testing measures. TEL refers to the lowest/most economical figures (with the lightest set of options). TEH refers to the highest/least economical figures (with the heaviest set of options). WLTP legislation dictates that where there is <5g CO₂ variance between TEL and TEH, only the TEH is declared.  ‡Weights reflect vehicles to standard specifications. Optional extras increase weight.  ‡‡Includes a 75kg driver, full fluids and 90% fuel.  ∆Includes full fluids and 90% fuel.

DIMENSIONS AND CAPABILITIES

**Headroom**
- Maximum front/rear headroom with standard roof 989mm/973mm
- Maximum front/rear headroom with panoramic roof 1,013mm/997mm

**Legroom**
- Maximum front legroom 1,816mm
- Maximum rear legroom 859mm

**Loadspace Capacity**
- Height 691mm, Width 1,301mm
- Loadspace width between arches 1,053mm
- Maximum loadspace volume behind first row
  - Dry*: 1,156 litres
  - Wet**: 1,383 litres
- Maximum loadspace volume behind second row
  - Dry*: 472 litres
  - Wet**: 591 litres

**Turning Circle**
- Kerb-to-kerb 11,6m
- Wall-to-wall 11,9m
- Turns lock-to-lock 2,3

**Wading Depth**
- Maximum wading depth 600mm

---

*Dry: Volume as measured with Verband Der Automobilindustrie-compliant solid blocks (200mm x 50mm x 100mm).
**Wet: Volume as measured by simulating the loadspace filled with liquid.
