Class A (18" wheels with ULRR Tyres) Class B (19"-22" wheels with All-Season Tyres) / 19"-20" wheels with Summer Tyres) Class C (18" wheels with All-Season Tyres) / (21"-22" wheels with Summer Tyres)

*Top speed is 220km/h when fitted with 18" wheels. **The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied.

¹WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile.
